Subject: Administrator Pruitt Meeting request

Dear Administrator Pruitt:

As President and CEO of Renewable Energy Group, Inc. (REG), North America's largest producer of advanced biofuel, I respectfully request the opportunity to meet with you and members of your staff to discuss issues important to American biomass-based diesel producers.

Like you, we are eager to restore certainty to regulated industries like our own. REG is a multi-feedstock producer that currently owns and operates 11 active biomass based diesel refineries across the United States with a combined nameplate capacity of 452 million gallons. We can provide you and your team with a unique perspective on the biomass-based diesel industry and the tens of thousands of jobs it supports.

I would like to discuss items within the Renewable Fuel Standard with you including the annual Renewable Volume Obligation, biomass-based diesel imports, and point of obligation.

I appreciate your consideration in advance. Should you have any questions about this request, please feel free to contact me directly at Daniel.oh@REGI.com or Lindsay Fitzgerald from our Corporate Affairs team at Lindsay.Fitzgerald@REGI.com.

Sincerely,
Dan

Daniel J. Oh | President & Chief Executive Officer | Renewable Energy Group, Inc.

Subject: Admin. Meeting Request for MPC

Hi Sydney,

Marathon Petroleum Corp.'s CEO, Gary Heminger, will be in town June 20-21 and is looking to meet with the Administrator. I've cc'd Mike Birsic who is a good friend and is the point person for setting this up. Mr. Heminger would like to talk about RFS and air regulations, among other things.

Mike, fill in any missing details.

Sydney, let me know if you need anything else from my end in the interim.

Best,

Mandy
