November 12, 1985

Bay Supply Company
312 31st Street South
P. O. Box 330
Texas City, TX 77592-0330
Attn: Mr. Richard Caswell

Dear Dick,

This letter is a revision to my letter dated November 5, 1985 in reference to the non-asbestos pipe gasket and non-asbestos sheet gasket material quotation. The original Bay Supply quotation was based on Johns-Manville 961 material but was corrected to Garlock by Mr. Chuck Elbert during the week of November 8, 1985. As a result Bay Supply Company/Lamons Metal Gasket Company were chosen as the prime supplier of the following categories of gasket material based on price:

1. Non-lethal service sheet gasket material
Garlock 3200
Garlock 3400 (alternate)
2. Lethal Service sheet gasket material
Union Carbide GHE (no substitutes)
3. Lethal Service Spiral Wound Gaskets
1/8" 316 Stainless Steel with Graphoil
filler material (no substitutes)
4. Lethal Service cut ring gaskets
1/8" Union Carbide GHE (no substitutes)

Bay Supply Company was chosen as the back-up supplier for the category of non-lethal service cut ring gaskets in 1/8" Garlock 3200 or 1/8" Garlock 3400 and non-lethal service spiral wound gaskets in 1/8" 316 stainless steel with Lamons Micarb filler material.

The balance of the November 5, 1985 letter remains unchanged. If you have any questions please feel free to call.

Marine and Petroleum
1404 North Avenue J
P. O. Box 2939
Freeport, TX 77541
Attn: Mr. Wes Eddelman

Dear Wes,

During the month of October, 1985 quotations were solicited for non-asbestos pipe gaskets and non-asbestos sheet gasket material. I am pleased to announce Marine and Petroleum was chosen as the prime supplier of the following categories of gasket material:

1. Non-lethal service cut ring gaskets
1/8" Garlock 3200
1/8" Garlock 3400 (alternate)
2. Non-lethal service spiral wound gaskets in 1/8"
316 stainless steel with Flexitallic Flexite
Super filler material.

Marine and Petroleum was chosen as the back-up supplier for the following categories:

1. Non-lethal service sheet gasket material
Garlock 3200
Garlock 3400 (alternate)
2. Lethal Service sheet gasket material
Union Carbide GHE (no substitutes)
3. Lethal Service cut ring gaskets
1/8" Union Carbide GHE (no substitutes)
4. Lethal Service Spiral Wound Gaskets
1/8" 316 Stainless Steel with Graphoil
filler material (no substitutes)

Effective October 29, 1985, no asbestos pipe gaskets or asbestos sheet gasket material is to be purchased or accepted at the Monsanto-Chocolate Bayou facilities. The asbestos pipe gaskets and asbestos sheet gasket material currently in stock at Chocolate Bayou will be reduced by

Mr. Wes Eddelman

- 2 -

November 11, 1985

attrition until December 31, 1985. At that time any remaining asbestos gasket material will be withdrawn from the stocking program and vendor restocking negotiations will be conducted at that time. This should minimize the restocking burden for Marine and Petroleum and minimize the restocking fee for Monsanto.

The asbestos changeout committee is appreciative of the effort you and your staff have given this competition.

If you have any questions please feel free to call.

Triplex, Inc.
P. O. Box 1270
Texas City, TX 77590
Attn: Mr. Ken Kuykendall

Dear Ken,

During the month of October, 1985 quotations were solicited for non-asbestos pipe gaskets and non-asbestos sheet gasket material. Unfortunately Triplex, Inc. was unsuccessful in capturing any of the six categories of gasket materials based on price.

The asbestos changeout committee is appreciative of the effort you and your staff have given this competition. We look forward to continued good customer-vendor relations on other material.

If you have any questions please feel free to call.
