CINCINNATI, OHIO 45229
November 26, 1971

BOARD MEMBERS:

WILLIAM L. BLUM
PRESIDENT

AMBROSE H. CLEMENT, M.D.
VICE-PRESIDENT

DOUGLAS L. HOGE

MRS. LORENA JEWELL

RICHARD K. MOSBAUGH, D.D.S.

Dear Community Council President,
Health Committee Chairman,
Agency Executive or
Citizens Concerned about Lead
Poisoning in Cincinnati:

For many months now, the Cincinnati Health Department has been in the process of developing a grant application for the detection, treatment and follow-up of high blood levels of lead ingestion among children. In conjunction with the staffs from Children's Hospital, CGH, Children's Convalescent and many other institutions, the Health Department has held meetings with laymen and professionals, and seminars for its own staff to promote lead poison awareness. The Health Department is preparing its proposal for presentation to the Board of Health in the very near future.

Before completing this proposal and sending it to the Board of Health for its approval, Staff of the Department would like to have community input on the document. We are therefore inviting the participation of all community council presidents, health committee chairmen, and other community organizations and agencies concerned about lead poisoning, and whose points of view should be reflected in the final proposal.

You, or anyone you wish to delegate, are invited to attend a meeting at 3: PM on Friday, December 3, 1971 in the Auditorium of the Cincinnati Health Department, 3101 Burnet Avenue, for discussion.

We look forward to seeing you and sharing your thinking on this very critical health problem.

Sincerely yours,

Marjorie W. Jordan
Marjorie W. Jordan, Coordinator
Community Outreach
