15 Q Mr. Drislane, let me direction your attention to
16 what I have marked as Exhibit LL. This is a report to the
17 Asbestos Study Committee dated September 27, 1976, the
18 subject is "Asbestos Dust Control in Brake Service Centers."
19 And attached to this report are correspondence, one of which
20 is a letter to you dated September 20th, 1976, about seven
21 days beforehand from a Mr. Robert J. Cerullo, C-E-R-U-L-L-O,
22 of Motor. Let me direct your attention to that. If you
23 could review that to yourself for a moment.
