New York Times News Service

NEW YORK—Two more of this season's new television shows received a cancellation notice today. "Shane" and "Hawk," both hour-long programs, will be discontinued by the American Broadcasting Co., at the end of December.

"Shane," a western adapted from the 1953 motion picture of the same title, stars David Carradine as a former gunfighter employed on a ranch. Produced by Titus Productions, Inc., a company headed by Herbert Brodkin, "Shane" is televised at 7:30 p. m. Saturdays.

"Hawk" depicts the adventures of a New York detective portrayed by Burt Reynolds. It is produced by Screen Gems, Inc., and televised at 10 p.m. Thursdays.

At the beginning of the season, both "Shane" and "Hawk" proably received more favorable notice from professional critics than many other new shows. But the first national Nielsen rating report put the two shows down near the bottom of the list.

ABC has not made a decision about replacements for the cancelled shows. But "ABC Stage '67," now presented on Wednesday evenings, is still the prime prospect to succeed "Hawk." Burlington Industries and the Singer Company, sponsors of "Stage '67," have told the network they would continue with the show if it is rescheduled at 10 p.m. Thursdays.

Last month ABC withdrew "The Tammy Grimes Show" after four performances. Last week the Columbia Broadcasting System announced "The Jean Arthur Show" would go off Dec. 5.

The New York Philharmonic Young Peoples Concerts, which will be televised again this season by the Columbia Broadcasting System, will have a new policy—no middle commercials. The Bell System, sponsor of the series, will present one commercial message at the beginning of each program and two at the end after the concert is finished.

It will be the second Bell System show to avoid commercial interruptions. The "Bell Telephone Hour" on the National Broadcasting Co. network this fall has delayed commercials until the end of the program.

John A. Howland, advertising manager of the American Telephone and Telegraph Co., said yesterday:

"We are very pleased with the reaction to our new policy on the 'Bell Telephone Hour.' Judging from our mail, the plan has been welcomed by viewers."

The first of four young peoples concerts will be televised in color by CBS on Wednesday, Nov. 23, from 7:30 to 8:30 p.m. Leonard Bernstein will be the conductor. The concerts will be taped at Philharmonic Hall in the Lincoln Center for the Performing Arts.

Quiz on Third-round Rebids by Opener

You are South, neither side vulnerable. The bidding has been:

South	West	North	East
1 ♠	Pass	2 ♣	Pass
2 ♦	Pass	2 ♥	Pass
?			

What would you bid now with each of the following four hands? —

1. ♠AQ705 ♥Q8 ♦AK84 ♣J3
2. ♠AQ873 ♥4 ♦AJ86 ♣Q85
3. ♠KQJ982 ♥K73 ♦AQJ4 ♣—
4. ♠AK863 ♥10 ♦AQJ75 ♣K8

1. Three notrump. A good bidder knows how to send as well as receive. He must be careful to represent accurately the values he has, both in high cards and distribution, and also be able to interpret or receive any message his partner sends. These are the basic requirements for a good bidding partnership.

It would be wrong to bid only two notrump with this hand. The spade bid and the two diamond rebid could have been based on minimum values for example, only 13 high-card points. Since there are 17 points which have not yet been portrayed; they can now be identified by a jump to three no-trump. A two spade bid would be accepted on two counts. It would understate our high-card values and would also fail to identify the balanced distribution.

2. Three clubs. Here we have a different type of hand, so we send a different type of message. We can't bid notrump, since the distribution is unbalanced. Our high-card content is minimum, so we do not jump the bidding. The three club bid also serves to identify the heart shortage, since by now spades, diamonds and clubs have all been bid. The picture drawn is complete. The rest is up to partner.

3. Three spades. Again a different type of hand. This time we don't bid notrump because 6-4-3-0 hands don't lend themselves to notrump play. We can't support clubs because we don't have any, and we can't support hearts with only three trumps because partner appears to have only four hearts. (He bid the hearts secondarily).

Our spades are almost self-sufficient as trumps, since they are playable opposite a singleton, and, if need be, opposite a void. The jump to three spades is justified by the 16 high-card points. If we were to bid only two spades, partner might think we had only 12 or 13 points.

4. Three diamonds. This is more illuminating than any other bid we could make. By rebidding the diamonds we identify the five-card suit and at the same time imply five-card length in spades. This is because we would have opened the bidding with one diamond with a holding of four spades and five diamonds.

The extra high-card values are simultaneously revealed, since with a weaker hand containing the same distribution we would bid two spades to show a hand of the minimum class.
