Excellent...the only modification I may ask for is an hour (8:00-9:00) for the uranium guys to work some of their unrelated issues prior to sitting down with EPA at 9:00. Would that work for you?

Good morning, Diane and Patrick...

For the mining industry/ EPA meeting on Thursday, August 16th (presuming in Cheyenn), we'd like to suggest the following format to allow for relevant industry reps to attend based on subject matter.

9:00AM-12:00PM – Uranium Industry Committee follow up meeting on issues raised at February meeting. (Est industry personnel attending:10)

1:00PM-3:00PM – Review of NEPA with industry suggestions as directed by Administrator Benevento at February meeting (product forthcoming for your review). (Est industry personnel attending: 5-6)

3:00PM-5:00PM – Review of air quality issues raised at February meeting (including Exceptional Events Rule and Primary Quality Assurance Organization (PQAO) program). We would like to include appropriate staff from the Wyoming DEQ Air Quality Division on this one. (Est industry personnel attending: 5)

I hope this gives us a good starting point! Thanks again for the opportunity.

Cheers,
Travis D.

Hi Patrick...

Sorry to hear about the meeting on the 28th...we are happy to work with you to reschedule.

The uranium issues are pretty specific and technical, and I think would definitely need longer meeting to accommodate (AM for NEPA and Air, and PM for Uranium). That said, we did something similar in February and I think we could work it out.

Let's stay in touch...

Cheers,
TD

Hi Travis,

Could we cover the NEPA and exceptional events topics at this Uranium Industry meeting?

I am cancelling the June 28 meeting as Doug was not able to attend. Doug's scheduler Diane Moon is copied here to schedule this next meeting.

Thanks,
