REQUEST TO MONSANTO COMPANY
FOR SAMPLE QUANTITY OF PRODUCT
CONTAINING POLYCHLORINATED BIPHENYL ("PCB")

1. Name and address of organization making request:
The Cleveland Clinic Foundation
9500 Euclid Avenue
Cleveland, Ohio 44106

2. PCB product requested: Aroclor 1254

3. Quantity requested: 2 oz.

4. Reason for request: We plan to use the aroclor as a tool to induce microsomal enzyme activity in rats.

5. Use to which sample of PCB-containing product will be put:
We will inject aroclor into rats to induce microsomal activity in rat liver. We will use these enzymes to metabolize chemicals in a Salmonella test system.

6. Disposition to be made of any unused portion of sample:
If disposal is necessary, we will incinerate any unused portion.

MONS 096165

7. Names and brief description of educational background and job responsibility of person(s) who will be working with sample:

Raymond J. Shamberger, Ph.D.

Ph.D. Biochemist with 13 years of experience in handling toxic compounds.

Staff member - Department of Biochemistry

The undersigned organization represents that: the foregoing statements are true; it understands that if Monsanto elects to supply the requested sample of a PCB-containing product, Monsanto does so in reliance on the truth and accuracy of the foregoing statements; the person(s) designated by the undersigned organization who will be working with the sample is (are) aware that PCBs have been identified as a potential hazard to the environment and that regulations concerning their use or disposition are contemplated or may exist; that the label accompanying any sample will be read and cautions and instructions thereon will be observed; and that care is required in the disposition of PCB-containing products so as to avoid any adverse effect on human health and the environment.
