ELYRIA CITY DEPARTMENT OF HEALTH

JOHN N. BARTONE, M.D.
COMMISSIONER

CHARLES V. NELSON MEMORIAL BUILDING

ERNEST G. BARTHA
ASSISTANT COMMISSIONER

February 20, 1976

Mr. Lawrence Jackson
R.D. #2
Wellington, Ohio 44090

Dear Mr. Jackson:

It has been determined that the milk samples submitted to the Ohio Department of Agriculture Laboratory, Reynoldsburg, Ohio by John Waggoner of the Ohio Department of Agriculture on January 15, 1976 and February 2, 1976 contained 2.70 parts per million Poly-Chlorinated Biphenols. This is above accepted standards.

You are in violation of Regulation HE-23-03 of the Ohio Sanitary Code, adulterated raw milk.

You are hereby ordered to cease and desist the sale of milk for human consumption until such time that you notify the Elyria City Department of Health with results of milk tested by the Ohio Department of Agriculture that is free of Poly-Chlorinated Biphenols.

Your license will be suspended if the cease and desist order is not complied with.

Very truly yours,

John N. Bartone, M.D.
Health Commissioner
