*Absent

E. M. Fenner	AIA/NA Technical Committee. Letters have been sent to 21 members requesting curriculum vitae on technical people who will be asked to participate as the need occurs. Jim Leineweber, Don Hillier, George Swallow and Bill Reitze with Ed Fenner as Chairman, will make up the J-M group.
Jan McGrath	Send copy to each committee member of Dr. Lewinsohn November 13th letter to F.J.Solon regarding review of medical data used by BOHS when recommending British asbestos standard.
W. C. Streib	Advise G. L. Swallow of areas which are poor at interrupted intervals. Environmental Control needs cooperation.
F. J. Solon, Jr.	Talk to W. L. VanDerbeek regarding environmental conditions at Reeves and Bolduc.
J. S. Autry	Develop Briefing for EPA on methodology for testing water. Make recommendations. Present late January or early February.
J. S. Autry J. Leineweber	Making presentation to Hazardous Substances Committee December 18th--subject A/C Water Pipe. John Autry to contact Malone ahead and advise that presentation does not include medical studies, will include only technical information

G. W. Wright	Acceptable Risk: Subject has been reviewed in papers: Schneiderman, Ted Hatch, Borry-in Lyon Conference paper, Lee (British) More commonly discussed outside U.S. Check for available papers.
G. W. Wright	Endeavor to have business, unions and trades, government, work together to set standards--subject discussed informally as Cosmos Club meeting
