GOVERNMENT OF WESTERN AUSTRALIA

MINES DEPARTMENT

A.J.J. MURPHY

KALGOORLIE 9th December, 1964.

OUR REF.

YOUR REF.

AJM:LS

The Manager,
Australian Blue Asbestos,
WITTENOOM.

Dear Sir,

Would you please supply the following information to this office at your earliest.

- (1) Any alteration to major airflows on your mines, such as that caused by the repositioning or installation of large fans, during the year ended 31st December, 1964.
- (2) The measurement of primary airflows, either natural or fan assisted.
- (3) Any development, or reconstruction of existing openings solely or incidentally for ventilation purposes.
- (4) Any proposal to alter the major ventilation circuit in your mines by connection; fan installation; etc.
- (5) The number of types of Primary and Secondary fans in use underground.

Also regarding your Mill, the following information is required.

- (6) Any alteration, reconstruction or new installation to your dust extraction units during 1964.
- (7) Any new proposal to alter or reconstruct any of these units in the future.
- (8) Other points of interest on the dust control of your Crushing or Treatment plants, such as problems encountered, overcome or being dealt with.

This information is necessary to our Department for the compilation of the Annual Report on Ventilation.

Yours faithfully,

A.J.J. Murphy
SPECIAL INSPECTOR OF MINES.
