DATE : January 11, 1977 CC: J. Laveglia

SUBJECT : AROCLORS 1016, 1242 AND 1254
MATERIAL SAFETY DATA SHEETS

REFERENCE :

TO : J. T. Garrett

I recommend that the Section 4 - Fire and Explosion Hazard be revised to reflect what truly happens in a normal situation such as grass fires, etc., rather than the combustion products when the product is incinerated.

If you agree, please suggest the proper wording and I will have the sheets revised.

Thanks for your help.

Cole Weber
