The project to install temporary residue neutralization facilities has been approved. All equipment will be on order by May 20, 1977. Design is proceeding on schedule, with a package date of June 3, 1977. Repairing and checking out of existing equipment located at the incinerator such as pumps, instrumentation and electrical can start immediately. All work and material for this project should be charged to 3-8948-900. Harry Yapp, the Project Sponsor will monitor the project in all phases.
