Dr. Jon Konze, Medical Director
Owens-Corning Fiberglas Corporation
Tower Fiberglas - P. O. Box 901
Toledo, Ohio 43601

Dear Jon:

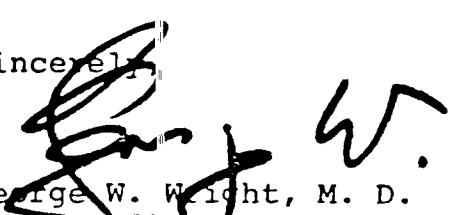

I hope that you fared better in getting out of Philadelphia than I did. Because of anticipated storms, our departure was delayed for two hours, and it was midnight before I arrived at home.

My out-of-pocket expenses for the trip from Cleveland to Philadelphia and back were as follows: Air transport - \$94.00; surface travel to and from Cleveland airport - \$24.00. My consultant's fee for the discussions with you en route to the plant and the work at the plant itself is \$350.00.

I was favorably impressed by the motivation and efforts of those in charge of the plant to improve the working conditions. Much has obviously been done, but there still remains quite a bit more to do. I have the impression that a good start has been made.

With best wishes,

Sincerely,

George W. Wright, M. D.
Head, Medical Research Dept.
