Stu/Patsy,

I talked to William Wu, president of China Oil, U.S.A and VP- PetroChina. He attended the API meeting 2 weeks ago in Washington and is "vaguely" aware that a group of 5 companies are funding a study in China. He will be in Houston for 2 meetings in November 14-16 and would like to visit us to learn more about the Shanghai benzene study. Are you available?
Shan

Patsy:

Shan and I will be getting together at 10 am on Wed morning (your outlook calendar is open at this time) to discuss:

- 1) China outreach to China companies
- 2) Outreach to DuPont (I spoke with Robin Leonard this afternoon and she will be forwarding me some possible presentation dates).
- 3) Children's Health document entitled: Are Children more vulnerable to environmental chemicals.

If you can't make that time, let us know a better time so we can reschedule

Stuart Cagen
