Situation Wanted

Friendly, honest, forty-eight page rare and specialty gas catalog lists over two hundred different pure gases, mixed gases and gas handling equipment and accessories. Seeks home in your file cabinet. References on request. Why not send now—so you'll have it when you need it. If you'd like this catalog, just tear off the bottom of this column and leave on your secretary's desk.

Dear Secretary, Please fill in this coupon. When the catalog comes in, don't even bother showing it to me, just file under "gases." Thank you.
