SCOPE

Monsanto Mitsubishi Kasei (MMK) has decided to request authority to build a 5.5 M lb./yr. biphenyl - 10 M lb./yr. Aroclor plant based on appropriation grade capital estimates provided by Monsanto.

CED has been requested by Organic Division to prepare a process design package on which MMK will base the detailed mechanical design of the new facility.

This revision of the engineering authority will cover this additional work including reviews of MMK's design and preparation of plant operating procedures.

Since CED will complete only the process design, the participation of other sections will not be required.

DISTRIBUTION OF CHARGES

Charge Organic Division account 2-000-108.14 per authority of J. Cresce in memo to R. E. Howard dated 9/25/67.

ESTIMATED "EXPENSED" ENGINEERING: $5,000

PROBABLE COST - CAPITAL PROJECT: $1.2 M
