To J. E. Zeller, Lancaster

From H. N. Nunis, Richmond

Subject Asbestosis Claims

PLAINTIFF'S EXHIBIT

ACS-323

It would appear that we will be involved in a test hearing concerning an employee who has Asbestosis that was contacted and diagnosed while working for a previous employer. The hearing will center around which Employer Insuranco Carrier is accountable for Workmans Compensation. The individual involved has what is called First Stage Asbestosis contacted and diagnosed while working for C. E. Thurston & Sons in Richmond. While employed by us he was advised by a doctor simply to take two weeks off. He is not incapacitated, but is putting in a claim for compensation for the two weeks. Also, involved will be some doctor bills for minor treatment etc.

I will keep you advised. In the meantime, let he have any comments and/or information that you might have concerning this matter from other areas.
