I am attaching a REVISED copy of the Material Safety Data Sheet for lubricant that was updated October 4, 1989 however we did not receive this till January 16, 1990.

Two important things I wish to bring to your attention:

1. Manufacturer - Seacord Corporation & not Concord Chemical.

2. Identity - Concord Pipe Joint Lubricant & not fluid-tite lubricant.

I shall assume that you are turning over your inventory and shipping out all the lubricant that is marked "fluid-tite" before starting to use the "Concord Pipe Joint Lubricant". If requests are made to you for a Material Data Safety Sheet on lubricant please feel free to make copies of this and forward them to the requestee.

For your information this was brought to our attention thru O.S.H.A. visiting a contractor in Delaware and advising our supplier that the MSDS sheet that the contractor had was an outdated form and they supplied the form which was completed by Seacord Corporation and is attached. If you should have any questions please feel free to contact me.
