Thompson of Dawson. Dr. Thompson has been practicing in Dawson and surrounding country for more than twenty years. He is in San Francisco passing the last few days of a vacation.

STOREHOUSE FOR SUPPLIES

"Mayo is the warehouse where the annual supplies are stored for all those in the mining camps, in addition to its own 250 people," Dr. Thompson said at the Hotel St. Francis.

"Judging from the radio message I should say it was a bush fire. It is serious because it may have destroyed the supplies.

"The Stewart river is breaking now. It takes at least four days for the ice to flow before the river is navigable. Delay in taking new supplies to Mayo also would be caused by the time necessary to get boats ready. They are stored during the winter and need attention in the spring before being ready for use.

TOWN TWENTY YEARS OLD

"Mayo has been established more than twenty years. It has recently been the center of a silver boom, though the outside world is hardly conscious of the fact. I am quite heavily interested there myself.

"Building in Mayo has been of good business character during the last four years. Two good hotels and numerous warehouses were erected."

Raid for Robbers Proves Unavailing

Detectives Find One Man in San Mateo House

A squad of San Francisco detectives, heavily armed with riot guns, tear bombs and rifles, were led by Sheriff McGovern of San Mateo county in a raid on a ranchhouse two miles north of Beresford yesterday, where a band of bank robbers and crooksmen was reported to be in hiding.

Dave Franklin, alias John Smith, the only occupant of the house, surrendered without resistance and was placed in the San Mateo County Jail, booked en route to San Francisco, pending further investigation. Franklin said he was employed as a laborer on the ranch and knew of no gang of men visiting the place.
