Dear Doctor Lanza:

I received the very good news from Chancellor Chase this morning that he has heard from Mr. Ecker and that the latter is agreeable to our proposal that you head our new Division of Industrial Medicine.

I have not seen a copy of Mr. Ecker's letter but the Chancellor reported that Mr. Ecker, of course, did not want to make any final answer until he has had a chance to discuss it with you on your return from the West. It is clear from his letter, however, that he is willing, if you are, to have you serve on the faculty and has suggested that, to safeguard your retirement interests at the Metropolitan, it might be best for you to work with us on a part-time basis for the first year, during which time the Metropolitan would continue to pay your entire salary. This seems a most generous proposal on Mr. Ecker's part and I know it means all the more because of the sacrifice he would be making in letting us have you for even part of the time.

I am simply delighted at the way this is turning out and I know that it means the success of our Institute of Industrial Medicine.

Sincerely yours,

Currier McEwen, M.D.
Dean

Dr. Anthony J. Lanza
Metropolitan Life Insurance Company
600 Stockton Street
San Francisco 20, California

P.S. We are planning to hold a press luncheon for the announcement of the Institute of Industrial Medicine on either June 3rd or 17th. We would prefer the 3rd. Is that date convenient for you? If not, could you make it on the 17th?
