ITEM 16C CHECKS The Bureau of the Census reviews your report for omissions, inconsistencies, and unusual ratios. To save your future correspondence about these problems, please make the following checks before returning your report. (1) Review the report carefully to see that no items are omitted for the year being covered. (2) Calculate and enter figures for the four "reasonableness" checks below, and review the results. (3) Correct your report for any errors you find and explain unusual figures in remarks. For most manufacturing establishments, the figures computed usually fall within the ranges indicated.

Item 17A WATER USE DURING 1977

1. What was the total quantity of water intake for this establishment for use in the production process and auxiliary operations (such as cooling and condensing, sanitary services, and boiler feed) during the calendar year 1977?

Mark (X) one box only

1 ☐ Under 1 million gallons
2 ☐ 1-9 million gallons

3 ☒ 10-19 million gallons
4 ☐ 20-49 million gallons

5 ☐ 50-99 million gallons
6 ☐ 100 million gallons or over

2. Did you recirculate any water during the calendar year 1977?

1 ☐ YES

2 ☒ NO

Item 17B CONSUMPTION OF SELECTED MATERIALS DURING 1977

Instructions - Please read

1. **GENERAL** - The materials, parts, and supplies listed below are those commonly consumed in the manufacture, processing, or assembly of the products listed in item 15. Please review the entire list and report separately for each item consumed. The materials, parts, and supplies consumed at this establishment which are not prelisted should be described and reported in the "All other materials, etc." line at the end of this section. If your consumption of a listed material is valued at less than \$10,000, enter an (X) in column (E) and include the value with "All other materials, etc." Census material code 970099 B. If your book records do not contain information as requested, reasonable estimates are acceptable.

2. **VALUATION OF MATERIALS CONSUMED** - The value of the materials, etc., consumed should be based on the delivered cost, i.e., the amount paid or payable after discounts and including freight and other direct charges incurred in acquiring the materials. This includes purchases, transfers from other establishments of your company, and withdrawals from inventories.

Materials transferred to you from other plants within your company should be assigned their full economic value, as assigned by the shipping plant, plus cost of freight and handling charges.

3. **CONTRACT WORK** - Materials purchased for use by others making products for you on a contract basis should be included. Amounts paid to other companies for such contract work should be reported in item 5a, and should include freight in and out. Materials owned by others but used at this establishment in making products for others under contract or on commission should be excluded.

4. **MATERIALS PRODUCED AND CONSUMED** - Materials, parts, and supplies which are produced and consumed in the same establishment in the manufacture of products should be reported in column (C-1). Please report only the quantities of these materials produced and consumed. If the specific input materials used to produce these items are listed, the quantity and value should be reported in columns (C-2) and (D). If not, the cost should be included in the "All other materials, etc." line, Census material code 970099 B.

Item 18 PRODUCTS AND SERVICES OF THIS ESTABLISHMENT DURING 1977

Instructions - Please read.

1. GENERAL - The products and services listed below are those that are generally made in your industry. Please review the entire list before completing the inquiry. If you produce products that are not prelisted, they should be described and reported in the "All other products" section at the end of item 18. Please do not combine product lines.

Products for which quantity data are requested should be reported in the unit of measure specified.

If your book records do not contain information as requested, reasonable estimates are acceptable.

2. VALUATION OF PRODUCTS - The value of the products shipped and services performed should be based on the net selling value, i.e., plant, after discounts and allowances, and exclusive of freight charges and excise taxes.

When transferring products to other establishments within your company, the shipping plant should assign the full economic value to the transferred products, i.e., include all direct costs of production and a reasonable proportion of all other costs and profits.

3. PRODUCTS BOUGHT AND SOLD WITHOUT FURTHER MANUFACTURE - Products which you purchase from another establishment and use in your manufacturing, processing or assembling of products made in this establishment should be reported as "Resales," Census product code 99999 00 8.

4. CONTRACT WORK

a. Products made by others for you from your materials: Report such products on the specific lines of this section as if they were made in this establishment.

b. Products that you made from materials owned by others: Report the amount that you received for "commission or contract receipts" on line 56, Census product code 93000 00 8. Do not report on the specific product lines for these products.

5. DETAILED DATA REPORTED ELSEWHERE - This report requires totals for groups of products covered in more detailed Current Industrial Reports (CIR) and International Trade Commission (ITC) schedules. If you report on the CIR or ITC forms, the value of shipments for items designated by an asterisk should approximate the sum of the detail reported on these forms.

a. Current Industrial Reports (CIR) - The groupings of inorganic chemicals for which shipment values are to be reported on lines 1-21, 27 below correspond to totals of groups of products covered in more detail on annual and monthly Bureau of the Census "Current Industrial Reports" surveys for 1977. The related report of the Current Industrial Reports is shown in column (B-3), and the related product codes in column (B-4). Report the total value of these lines in column (E).

b. International Trade Commission Schedules - The groupings of synthetic organic chemicals for which shipment values are to be reported on lines 42-49 below, correspond to similar classification groupings for which data are collected by the International Trade Commission. The related Section of the International Trade Commission Report is shown in column (B-3). Commercial shipments reported for this plant (column (E) minus column (G)) represent product groupings which combined with shipments for other plants of your company should, in most instances, approximate the sales figures reported to the International Trade Commission.

NOTE - Detail breakdowns for lines 44 and 45 reflect revisions to the U.S. International Trade Commission schedule, "Synthetic Organic Chemicals," sections XIV and XV, as introduced for 1976.

6. SPECIAL INSTRUCTIONS - Column (E), Lines 42-49 - Do not include chemicals produced and used at this plant in the manufacture of such products as antifreeze, pesticide preparations, etc., should be reported in column (E) on the specified preprinted product lines or, if not separately listed, on lines 50-54.

INORGANIC PIGMENTS (Report reduced colors on C.P. basis on lines 22-39) Titanium pigments, composite and pure (100% TiO ₂)		28161 11 5						
OTHER WHITE OPAQUE PIGMENTS (28162)	White lead, basic carbonate and sulfate, excluding white lead in oil	28162 13 9	Short tons	14590	6583	54406		
	Zinc oxide pigments	28162 21 2						
	Lead-free zinc oxide	28162 25 3						
	Leaded zinc oxide	28162 25 3						
All other white opaque pigments, including antimony oxide, lithopone, and pure zinc sulfide - Specify kind		28162 98 0						
CHROME COLORS AND OTHER INORGANIC PIGMENTS (28163)	Chrome colors (corresponds to the sum of codes 2816311-2816319 as reported on Census Form MA-28E-1, Shipments and Production of Inorganic Chemicals for 1977)*	28163 10 3						
	White extender pigments, including barytes, blanc fixe, and whiting	28163 27 7						
	Color pigments other than chrome colors and lakes and toners	Iron oxide pigments	28163 31 9	Short tons				
		Colored lead pigments	Red lead		28163 41 8			
			Litharge		28163 45 9			
		Iron blues (prussian blue, millori blue, etc.)	28163 51 7					
		Pearl essence	28163 61 6					
	Carbon blacks (bone and lamp), excluding furnace and channel carbon black and charcoal - Specify kind	28163 88 9						
	Cadmium sulfide pigments	28163 89 7						
	Ceramic colors - Specify chemical composition	28163 91 3						
Copper oxide pigments	28163 90 5							
All other color pigments, n.e.c.	Containing lead	28163 94 7	Thousands pounds					
	Not containing lead	28163 96 2						
All other color pigments, permanent type		28995 35 5						
Alkylaromatic antineoplastic preparations, permanent type								
Natural gas liquids (natural gasoline, plant condensate, liquefied petroleum gases, ethane, isopentane, and drip from lines)		13212 01 4	Thousands barrels
