A That is a metal door, the frame that the door goes in, but it is metal.

Q All right.

And you would actually stuff around it?

A Inside the door buck. When the door slams, it don't make a ringing noise.

Q Am I right that the people who are responsible for stuffing the door bucks were the Plasterers union?

A The plasterers, yes.

Q Am I right there were about 200 doors on each floor?

A Approximately, yes.

Q And there were 18 floors?

A Yes.

Q So if my math is correct, the plasterers there had to stuff 3,600 doors?

A Approximately, yes.

Q Now let me switch to the Sinai Hospital.

You mentioned, I believe, on direct that you were there for 12 months?
