FLUIDS TECHNICAL SERVICE REQUEST

NUMBER 32/72

INITIATED BY: D. E. Roush

DATE: June 2, 1972

CUSTOMER: E. I. Du Pont
Photo Products Dept.
Towanda, Pa.
D. Dickerson

SALESMAN: B. G. Moore

JUSTIFICATION:

Business Involved $ _____

Potential $ _____

Other (OEM, Etc.) _____

_____

MONS 097508

REASON FOR REQUEST: One of two small FR heating systems was converted to T-55 in early May. Two operators handling T-55 contacted the fluid and developed a skin rash that persisted for 24 hours. Before duPont will convert the second system, they want a "clean bill" on T-55. We suspect residual FR acidity picked up in T-55 may be culprit.

WORK REQUESTED:

Acid No. on new and used fluid. FR content on used fluid.

Acid No. is requested by 6/5/72.

TARGET DATE: 6/5/72

RESEARCH RESULTS:
