Conference Coordinator
Committee for the Elimination of
Lead in the District of Columbia
Office of Child Health Advocacy
Children's Hospital National Medical Center
2125 Thirteenth Street, N.W.
Washington, D.C. 20009

Dear Ms. Kelley:

Conference on Lead - District of Columbia

Reference is made to our telephone conversation of October 30t
letter of October 18th to Mr. George Worden regarding the Lead
sponsored by the Committee for the Elimination of Lead in the
of Columbia.

Enclosed are samples of literature on pediatric lead poisoning
Lead in Glazes for Art Potters and Hobbyists, which we would l
to make available to the attendees of the Conference. If your
would like a significant number of these publications for dist
please let me know the numbers required.

As I indicated in our telephone conversation, the Lead Industr
is happy to provide assistance in the Conference. It appears
program and panels are completed and that our contribution wo
in providing educational materials, participation in discussio
workshops, and longterm participation in your objective to eli
lead poisoning in the District of Columbia. We would be happy
with you and/or representatives of the Committee with regard t
assistance which LIA might provide.

Sincerely,

Donald R. Lynam, Ph.D.
Assistant Director, Environmental Health
