COURT BARES MANN LETTERS

SAN DIEGO, April 4.—Despite vigorous objections on the part of attorneys for the defense, Judge Spencer M. Marsh this morning permitted the introduction of letters alleged to have been written by Captain Louis L. Jacobs, United States public health service, to Miss Fritzi Mann, for whose murder he is on trial in the criminal court.

Introduction of the letters came during the testimony given by Chief of Police James Patrick, the court declaring that they were not being admitted as bearing on the question of the commission of a crime, but rather regarding the question of Miss Mann's health and her state of mind.

Miss Bernice Edwards of Long Beach, with whom Miss Mann visited last December, testified that she had known the dead girl since the latter was 12 years old, and that they had first met in Denver. She and Miss Mann had discussed the latter's health, she said, and finally the dead girl had told her that she was going to make a trip to San Diego to see Captain Jacobs.

A letter written by Miss Mann to Miss Edwards after she had returned to San Diego referred to her health, and stated that "things are going beautifully," although she appeared puzzled over some conditions that had arisen.

FLAT-TONE
(for walls and ceilings)

DEAR WALLS

Almost any new finish would make you good looking—for a short time.

Then the work of destruction begins. Colors fade, streaks appear, marks and stains from heads and hands begin to show.

Somehow, I have the ability to keep my good looks. I am a flat oil finish especially made for walls and ceilings. Note that word, "oil." It means that I do not fade, that dry heat will not flake me off, that I will not show streaks and brush marks; and—get this—if I become soiled, I can be washed without injury.

Sincerely,
Flat-Tone
