Operation Report
Dept. D-254 - PNP
October - 1966

Production

	Current Month	Year to Date
Scheduled -	222,460#	3,235,985#
Actual -	222,460#	3,238,184#

Availabilities

Repair - 100% Process - 100% Other - 100% Total - 100%

Yields

		Standard	Actual	YTD
% Theory Yield on:	PNCB -	93.60%	93.60%	93.47%
	NaOH -	71.89%	71.89%	72.32%

Operations

The department operated all month with one-line in operation. The NaPNP production was given priority for reactor batches over PNP production.

The last of the specially constructed 50# bag for shipment to India was filled on 10/29/66. Since then we have been filling regular 50# bags of PNP to build a 1,000,000 pound inventory for internal use in Niran.

Stock Position

Container	1st of Month	Last of Month
50# Bags	535,950#	436,850#
200# Regular	30,000#	13,800#
200# Flaked	776,825#	631,400#
Total -	1,342,775#	1,082,050#
Dept. Stock -	9,150#	7,600#
Total -	1,351,925#	1,089,650#
