MEMO TO Cumming Paton

This memo was based upon a meeting of Littick, Elden, Savage, Koenig and Gann where in cost accounting needs were discussed (1-7-72).

This memo is not real clear to me - especially the 1st paragraph. I talked with Bill Ault and he has been given no special instructions involving Savage.

I have asked for a session with Art Koenig (probably will be held on Tuesday, 1-18-72) to be sure the communication and authorization details are spelled out.

All customer returns of F R's for credit will be charged against manufacturing. (Gann's understanding) Do you agree.
