Bibliography on Mineral Wool

608.73 2	Player, A. A., and McAllister, Henry, Jr. patentees.	Treating slag, from iron and glass - furnaces, for producing a useful material. U. S. Patent no. 103,650. (In U. S. Patent Office. Annual Report, 1879, v.2, p.426 and 1870, v.3, illus., under patents issued 31 May, 1870, no. 103,650). Patentees, administrators of John Player, deceased. Issued May 31, 1870.
L605.1 S 41		A note concerning this patent may be found in Scientific American, Series 2, v.33 (July-December, 1875), p.321
606.131 1		Mineral Cotton. (In Franklin Institute. Journal, v.92 (1871), p. 361.
L605.3 1		Mineralische baumwolle. (In Dingler's Polytechnisches Journal, v.203, 5 Reihe, v. 3, (1872) p. 154-155 Contains a note concerning the editorial in the Franklin Institute. Journal, v.92, p. 361.
L605.3 1		Umwickelungsmaterial fur damfund heiss-windleitungsrohren. (In Dingler's Polytechnisches Journal, v.209,5 Reihe, v.8 (1873) p. 314) Abstract of article in wurttembergisches Gewerbeblatt, 1873, p. 288.
L622.053 0859	Tunner, P.	Eisen-hohofenschlacken. (In oesterreichische Zeitschrift fur Berg - und Huttenwesen, v. 21, (1873) p. 351).
L605.3	Tunner, P.	Ueber anwendung der eisenhohofenschlocken zur darstellung von baumaterial, fur specielle zwecke. (In Dingler's Polytechnisches Journal, v. 210, 5 Reihe, v. 10 (1873) p. 276). Articles reprinted from Oesterreichische Zeitschrift fur Berg - und Huttenmesen, v. 21, p. 351.
695.3 P 764	Meidinger, H.	Schlackenwolle. (In Polytechnisches Notizblatt fur gewerbtreibends, Fabrikanten und Kunstler, v. 30 (1875) p. 200-202). Article from Badische Gewerbezeitung, 1874, p. 264.

MTC 017156

	Meidinger, H.	Die sogenamte Schlackenwolle. (In Deutsche Industrie-zeitung, 1875, p.146 Technical note concerning the article may
540.53 C 426		be found in Chemisches Central - blatt, Dritte folge, v. 6, Ganze reihe v.46 (1875) p. 464.
L605.3 1		Schlackenwelle. (In Dingler's Polytechnisches Journal, v. 219, 5 Reihe, v. 19 (1876) p. 90).
L605-3 1		Eine unangenehme eigenschaft der schlackenwelle. (In Dingler's Polytechnisches Journal, v. 221, 5 Reihe, v. 21 (1876) p. 284). Short abstract of article in Deutsche Bauzeitung, v.10,p.210.
L720.53 D 48	Welpert	Eine gefahrliche eigenschaft der schlackenwolle. (In Deutsche Bauzeitung, v.10 (1876) p. 210. This article refers to a quostion in the same periodical, v.10, p.80.
L605.3 1	Schliephacke, H.	Ueber schlackenwolle und deren herstellung. (In Dingler's Polytechnischos Journal, v. 223, 5 Reihe, v. 23, (1877) p.70-72) illus.
	Kick	Schlackenwelle. (In Deutsche Industrie-Zeitung, 1877, p.175). Technical note concerning the article may be found in Chemisches Centralblatt, Dritte folge, v.8,
540.53 C 426		Ganze reihe v.48 (1877) p. 352).
	Baatsch, C.	Zur behandlung der schlackenwolle. German patent no. 2716 vom 17 Oct., 1877. Very brief technical note concerning this
540.53 C 426		patent in Chemisches Centralblatt, Dritte folge v.10,Ganze Reihe v.50 (1879) p. 436.
L 605.1 S 412		The manufacture of mineral wool. (In scientific American Supplement, v.287 (July-Dec. 1881), no. 319, p.4941).
L608.73 1	Parrett, R.D.A., patentee	Composition for mineral wool. U. S. Patent no. 372,436. (In U.S.Patent Office, Official Gazette, v. 41 (1887) p.527). Filed September 25, 1886, Serial no. 214,566. Issued November 1, 1887.
L606.282 3	Redgrave,Gilbert	The utilization of slag. (In Royal Society of Arts. Journal, v.38 (Nov.22,1889-November 14,1890) p.221-235).

MTC 017157

L608.73 1	Rockwell, C. H. patentee	Process of manufacturing mineral wool. U.S.Patent no.452,733. (In U.S.Patent Office, Official Gazette, v.55, (1891) p.985). Filed Feb. 7, 1891, Serial no.380,705. Issued May 19, 1891.
L608.73 1	Rockwell, C. H.	Process of manufacturing mineral wool. U.S.Patent no. 447,360. (In U.S. Patent Office, Official Gazette, v.54 (1891) p.1143. Filed February 21,1888, Serial no. 264818. Issued March 3, 1891.
L608.73 1	Wood, T.S.B. patentee	Process of manufacturing mineral wool. U.S.Patent no. 533,771. (In U.S. Patent Office, Official Gazette, v.70 (1895) p.743). Filed July 3, 1894, Serial no. 516,501. Issued February 5, 1895.
L628.051 A 512		How mineral wool is made. (In American Gas Light Journal, v.63 (July-Dec.1895) p.982).
L608.73 1	Doak, D. P., patentee	Mineral Wool. U.S.Patent no.605,042. U.S.Patent Office. Official Gazette, v.83, (1898) p.1321). Filed May 20, 1897, Serial no.637,459. Issued May 31,1898.
L622.051 E 57	Elbers, A.D.	The manufacture of sulphur-free mineral wool. (In Engineering and Mining Journal, v.68 (July-Dec.1899) p.248-249).
L669.052 2	Elbers, A.D.	The manufacture of sulphur-free mineral wool. (In Iron and Coal Trades Review, v.59 (July-Dec.,1899) p.484-485). Same article as above only last paragraph of the above has been omitted.
L605.1 S 813	Elbers, A.D.	On the validity of mineral wool patents. (In American Manufacturer and Iron Trade v.64 (January-June, 1899) p. 151-152).
L608.73 1	Elbers, A.D., patentee	Process of manufacture mineral wool. U.S.Patent no. 623,398. (In U.S. Patent office. Official Gazette, v.87, (April-June, 1899) p. 463).Filed 19 Nov. 1898. Serial no. 698,908. Issued April 18, 1899.
L621.051 1	W.W.	Making mineral Wool. (In American Machinist, v.26 (1903) p. 419).

MTC 017158

1608.73 1	Parkinson, T.B. patentee	Manufacture of waterproof mineral wool. U.S.Patent no. 945,583. (In U.S.Patent Office. Official Gazette, v.150 (1910) p. 192). Filed November 10, 1908, Serial no. 461,943. Assigned to the Union Fibre Company, Winona, Minnesota. Issued Jan. 4, 1910.
	Martiny, G.L. patentee	Slag wool as a heat insulator. German patent no. 250,964. Issued April 21, 1911.
621.5 R 403	Cooper, Madisen	Mineral wool, manufactured forms of mineral wool. (In his "Practical Cold Storage", 2nd.,ed. Chicago, Nickerson and Collins Co., 1914,p.80-83).
541.06228 1	Griffiths, Ezer	The termal conductivity of materials employed in furnace construction. (In Faraday Society, Transactions, v.12 (1916-17) p. 193-206 . Slag wool on p. 202-203. Same article
L630.7261 1		reprinted in National Physical Laboratory. Collected researches, v.15, (1920) p.1-15. Slag wool on p.13-14.
L621.03 R 760		Mineral Wool. (In Machinery's Encyclopedia. N. Y. Industrial press, 1917, v.4, p.409).
L663.54 I 42	Hutin, A.	Slag Wool. (In L'Industrie Chimique, v.5 (1918) p. 183-84)
L608.73 1	Fay, W., patentee	Means for making mineral wool. U.S. Patent no. 1,256,541. (In U.S.Patent Office. Official Gazette, v. 247 (1918) p. 493-94). Filed March 3, 1917, Serial no. 152,329. Issued February 19, 1918.
L680.6282 I	Thomas, R.	Thermal conductivities of insulators in relation to the lagging of steam pipes. (In Society of Chemical Industry. Journal, v.39 (1919) p.357T.-360T). Slag wool one of the substances considered.
L608.73 I	Lappen, J. E. patentee	Cement-fiber board. U. S. Patent no.1, 297,480. (In U.S.Patent Office. Official Gazette, v.260 (1919) p.435) Filed August 5, 1916. Serial no. 113,236. Issued March 18, 1919.

MTC 017159

530.6268 1	Griffiths, Ezer	New specific heat apparatus. (In Physical Society of London. Proceedings, v.33, (December 1920-August 1921) p. 355-61) Specific heat and moisture content slag-wool, p.380.
	Branck, Heinrich patentee	Verfahren zue bildung wasserbestandiger korper aus schlackenwolle, German patent no. 331,675. Klasse 80c vom 9/9 1919. Ausg. 7/1 1921)
540.53 C 426		Abstract in Chemisches Zentralblatt v.92,pt.2 (January-June, 1921) p.658
L605.1 P 81		Limestone wool made into heat insulators. (In Popular Mechanics, v.36, July-December,1921) p.97-98).
614.3 50	Griffiths, Ezer	Report on heat insulators by the Engineering committee of the Food investigation board. (In Great Britain Department of Scientific and Industrial Research. Food Investigation Board. Special Report no.5(1921) p.32, 37-40,etc.)
L543.052 A 532	Griffiths, Ezer	Report on heat insulators. (In Analyst v.47 (1922) p.119-120). Very brief notes concerning the above.
L671-0051 S 541		Felted mineral wool blocks for insulating. (In Sheet Metal Worker. v.12 (February, 1921-January,1922) p. 113)
L628.052 G 213	Booth, W. N.	Heat insulating materials. (In Gas Journal, London, v.160 (Oct-Dec,1922), p.798-799). Slag wool one of the products considered.
L660.51 M 56	Lang, Herbert	Some problems encountered in designing and operating a slag wool plant. (In Chemical and Metallurgical Engineering, v.29 (1923) p.365-67).
L660-6282 I	Griffiths, Ezer	Report on heat insulators. (In Society of Chemical Industry. Journal v.43 (1924), p. 898B. Very brief abstract of Great Britain. Department of Scientific and Industrial research. Food Investigation Board. Special report no.5.

MTC 017160

L608-73 I	Charlton, H.W. patentee	Phosphoric acid recovery. U.S. Patent no. 1,513,688. (In U.S.Patent Office Official Gazette, v.327 (1924) p. 791. Filed September 7, 1923, Serial no. 661,523. Issued October 28, 1925. Assigned to American Cyanamid Company, New York, N. Y. A fluid mass of phosphate rock and sand is disintegrated and the slag is caused to form matted threads adopted for use as slag wool.
L671.0051 S 541		Slag wool as a building insulator. (In Sheet Metal Worker, v.15 (February 1924-January, 1925) p. 861-862).
666.06215 I	Green, A.T., and Edwards,H.	The heat-insulating efficiencies of some diatomaceous earth products and slag wool. (In Ceramic Society (English). Transactions, v.24 (1924-25) P. 228-39).
L628.052 G 213	Green, A.T. and Edwards, H.	Heat insulating efficiencies of some diatomaceous earth products and slag-wool. In Gas Journal, London, v.171, Supplement, July 22, 1925, p.23-27.) Same article in Ceramic Society, Transactions v.24, p.228-39.
L666-051 R 59	Thoenen, J. R.	Mineral wool and cement from a silicified lime rock. (In Rock Products, v.28 (1925) 21 Feb. 1925, p.39-41).
A666.051 8		Banner Rock wool makes ideal insulator. (In National Glass Budget, v.42,no.10 (August 7, 1926) p.9)
L608.73 1	Koberle, A., patentee	Means for blowing mineral wool. U.S.Patent no. 1,650,136. (In U.S.Patent Office Official Gazette, v.364 (1927) p 920). Filed June 10, 1925, Serial no.[illegible] Issued November 22, 1927. Assigned to L.&W. Corporation of California. Ueber die herstellung von schlackenwolle in America. (In Warme, v.51 (1928) p. 483-485).

MTC 017161

L608-73 1	Powell, E.R. patentee	Producing rock wool, Method of an apparatus for U.S.Patent no. 1,656,835. In U.S.Patent Office. Official Gazette, v.366 (1928) p.680). Filed January 5, 1927, Serial no. 159,228. Issued January 17, 1928.
J631 S900		Mineral Wool. (In Encyclopedia Americana, 1929, p.163-164).
L669.053 S 78	Guttman, Arthur	Verwendbarkeit und eigenschaften von schlackenwolle. (In Stahl & Eisen, v.49 (1929) p.97-101).
L622.051 U 5862	Thoenen, J. R.	Mineral wool. 13 p. (In U.S. Bureau of Mines. Information Circular no.6142, June 1929).
L620.52 3	Thoenen, J. R.	Mineral Wool. (In Engineer, v. 148 (1929) p.179). Excerpts from U.S. Bureau of Mines Information Circular, no. 6142.
L622.051 C 15	Thoenen, J. R.	Mineral Wool. (In Canadian Mining Journal, v. 50 (1929) p. 793-94. Excerpts from U.S.Bureau of Mines, Information Circular no.6142.
