Mr. Alexander Amend
Liberty Mutual Company
10 Rockefeller Plaza
New York, New York

Dear Mr. Amend:

Confirming my phone conversation with you this afternoon, enclosed herewith is summons served on me personally at 11:25 a.m. today.

Personal injury action is apparently involved here. I believe the plaintiff, Charles Kamer, is claiming that he got toxic hepatitis from inhaling the fumes of a product we make (Aroclor) when a machine containing this product exploded in the plant of Hexagon Laboratories, Inc., 3536 Pear Tree Avenue, Bronx 69, New York.

We discussed this case with Mr. E. L. French, our attorney in St. Louis, and he asked us to contact you requesting that you defend us against this action.

If you need any further information, I suggest that you channel your requests through Mr. French's office in St. Louis.

Very truly yours,

M. L. Krekel
Office Manager
