

REGIONS AND CHAPTERS OF THE SOCIETY

Under the Regional Plan adopted in 1956 the 72 Chapters are divided into 7 geographical regions, with regions headed by a regional director who is chairman of the Chapters Regional Committee for his respective area. The regional directors are MEMBERS of the Council, and also comprise the Regions Central Committee of which the Second Vice President is chairman.

Each Chapters Regional Committee meets once a year between February and May to discuss Chapter problems and select a member to represent the region on the Society Nominating Committee.

Individual Chapters average eight meetings a year between September and May, which are distinct and apart from Society Annual and Semi-Annual Meetings.
