Dear Mr. Weber:

Attached are copies of two separate articles that have come to my attention. First is from the RUBBER & PLASTIC NEWS of August 22, 1983, reporting a \$750,000 grant from the American Cancer Society to the University of North Carolina and United Rubber Workers to sponsor a "Cancer Awareness Program".

The second is a pamphlet entitled "Finding the Key to Cancer - A National Priority" that was mailed to UNIROYAL's Stockholders along with First Quarter Results.

Very truly yours,
