Hi [REDACTED]

That is strange - I simply forwarded the attached meeting invitation to you and your colleagues. Hope this works.

Kind regards

Hi [REDACTED]

I got a blank message from you just now. Was this intended to be the joining instructions for later?

Thanks,

Hi ██████████

██████████ can join the last 35 minutes of the WP3 HH call tomorrow. I have a vaccine appointment in the morning so may be a little bit late (or miss completely) depending on how this goes.

Would you be able to send us the joining instructions.

Thanks,

Dear [REDACTED]

Will you and [REDACTED] be able to join for the last 30-45 min of the meeting on the 16th? The WP3 HH group will have an internal discussion on the concept paper at the beginning of the meeting.

Kind regards

Hi [REDACTED]

Thanks. I would still be free to join on the 16th, and I believe [REDACTED] would be to, if needed to answer any questions on the concept paper. I joined the ENV meeting earlier this week for example. Finding a common time for a meeting between us all appears quite difficult.

Please let me know.

Yours,

Dear all

I see that [REDACTED] is planning a joint meeting between you at ECHA and both the WP3 ENV and HH group. This means that the suggestion to join the UPFAS WP3 HH hazard sub-group on Wednesday the 16.6 is not relevant.

Kind regards

Dear all,

Thank you for the 'concept paper'. The UPFAS WP3 HH hazard sub-group would like to discuss some practical details with you in terms of format and content of the HH hazard parts that needs to be finalised by mid august.

Will you be able to join our meeting in the UPFAS WP3 HH hazard sub-group on Wednesday the 16.6 at 11-13 (CET) for 30-45 min in the beginning of the meeting?

Best regards

Dear [REDACTED]

Dear All,

Please find attached a few comments on the minutes of the last coordination meeting.

With regard to the first action point mentioned in the minutes, please find attached the 'concept paper' on the integration of the universal PFAS restriction approach to SID, hazard, exposure and risk into the ECHA's restriction on PFAS in firefighting foams as a basis to plan the next steps. Many thanks in advance for passing this on also to the colleagues in the relevant work packages.

If you have any questions, please do not hesitate to get in touch.

Best regards
