Mr. Tom C. Ford - St. Louis

March 11, 1969

Mr. H. S. Bergen - HBERG

TOKYO MITSUBISHI MONSANTO
Dr. John R. Durland

Howard Bergen tells me you are also having some problems regarding supposed contamination of the environment with Aroclors.

Enclosed is some background material about the recent controversy on the West Coast. It includes a story from the San Francisco Chronicle and a company statement we are using with the press, customers and the general public.

I will keep you informed of any further major developments.

Tom C. Ford
