Research and Development
Organic Chemicals Division
Monsanto Company
800 North Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Dr. Richard:

This is a letter follow-up of our telephone conversation on September 29, 1969, concerning shipment of additional one-pound amounts each of Aroclor 1254 and Aroclor 1260 to the Reference Standards Section, Washington, D.C.

This material will be used by Dr. Clara Williams, Chief, Residue Toxicology Branch, at Washington, D.C., and is in addition to our request of September 26, 1969, that the same Aroclors be shipped to our Atlanta Toxicology Branch.

We thank you for supplying these chemicals on a gratis basis for toxicity studies and your continued cooperation in our reference standards program.

Sincerely yours,

A R Glasgow, Jr.

A. R. Glasgow, Jr., Ph.D.
Acting Chief, Reference
Standards Section
Residue Chemistry Branch
Division of Pesticides
