J. M. Kline Lead Free Paint Products

8-6-71 HRB to JJL

The items listed in the referenced letter are not completely lead free. These items are alkyd modified and there is a small amount of lead used in the manufacture of the alkyd.

This small amount of lead keeps us from referring to the product as lead free. Similarly we cannot claim lead free for Kem-Glo, Kem Velvet, Kem Hi Gloss, All Surface Enamel, PC Enamels, Fashion-Right Enamels, A-100 and other enamels.
