MR. G. E. KELLEY
MR. D. J. BIRMINGHAM

SUBJECT: Owens-Corning Fiberglas
Harrison, New Jersey

Over the course of the last two or three months, there seems to be some confusion on exactly what type of package we use for the subject.

Granted, there have been a variety of reasons for this confusion, however, matters are now quite settled and please mark all records and advise all those concerned that One-Cote and "66" shipments to O-C, Harrison, should always be packaged in our standard Eagle-Picher bags and not in Owens-Corning rebrand bags referred to as SC-30 and 40. This will be true even in those cases where the purchase order originating from Harrison might inadvertently show the Owens-Corning nomenclature. In so many words, this should be considered an Eagle account.

Best regards,

Robert L. Bockstahler
