2.

Ed, in May of 1971 these people bought 12,000# of Aroclor 1242 from us & we shipped it which perhaps we shouldn't have - They bought it as Capacitor fluid A1242 but this is not their "bag" - we suspect they wanted it to replace A1254 plasticizer grade which they can't buy - Maybe Jan. should check up on it because they will be refused any additional A1242 if they order it.

Regards

Phil.
