INDUSTRIAL MEDICAL ASSOCIATION

Headquarters Office
28 East Jackson Boulevard, Chicago 4, Illinois

★

Edward C. Holmblad, M.D., Managing Director
Clark D. Bridges, Assistant Managing Director
Rita Kirtley Packer, Executive Secretary

★

Officers

Jerome W. Shilling, M.D., President
The Pacific Telephone & Telegraph Company
Los Angeles, California

H. W. Lawrence, M.D., President-Elect
The Procter & Gamble Company, Cincinnati, Ohio

D. John Lauer, M.D., First Vice-President
Jones & Laughlin Steel Corporation, Pittsburgh, Pennsylvania

Robert E. Eckardt, M.D., Second Vice-President
Esso Research and Engineering Company,
Linden, New Jersey

H. Glenn Gardiner, M.D., Secretary
Inland Steel Company, East Chicago, Indiana

Edward C. Holmblad, M.D., Treasurer
28 East Jackson Boulevard, Chicago, Illinois

★

Directors

1956-1958

Allen M. Collinsworth, M.D.
Industrial and Traumatic Surgery, Atlanta, Georgia

Carl U. Dernehl, M.D.
Union Carbide Corporation, New York, New York

Homer S. Elmquist, M.D.
Los Angeles, California

Emmett B. Lamb, M.D.
International Harvester Company, Indianapolis, Indiana

Gradie R. Rowntree, M.D.
Fawcett-Dearing Printing Co., Louisville, Kentucky

Robert M. Watrous, M.D.
Abbott Laboratories, North Chicago, Illinois

Directors

1957-1959

L. E. Curtis, M.D.
Standard Oil Company of California
San Francisco, California

Glenn S. Everts, M.D.
Curtis Publishing Company, Philadelphia, Pennsylvania

J. F. McCahan, M.D.
Liberty Mutual Insurance Co., Boston, Massachusetts

Robert B. O'Connor, M.D.
U. S. Steel Corporation, Pittsburgh, Pennsylvania

Arthur K. Peterson, M.D.
R. R. Donnelley & Sons Company, Chicago, Illinois

Norbert J. Roberts, M.D.
Standard Oil Co. (N.J.), New York, New York

★

District Counselors

1957-1958

1. R. C. Thompson, M.D., West Lynn, Massachusetts
2. S. Charles France, M.D., New York, New York
3. James H. McDonough, M.D., Rome, New York
4. John M. Kimmich, M.D., Camden, New Jersey
5. Walter R. Fleischer, M.D., Baltimore, Maryland

5A. Charles L. Savage, M.D., Waynesboro, Virginia

6. Logan T. Robertson, M.D., Asheville, North Carolina
7. Joe M. Bosworth, M.D., Atlanta, Georgia
8. Joseph A. Llewellyn, M.D., Butler, Pennsylvania
9. Paul A. Davis, M.D., Akron, Ohio
10. Charles E. Work, M.D., Cincinnati, Ohio
11. Wilfred N. Sisk, M.D., Kalamazoo, Michigan
12. Julian E. Williams, M.D., Kingsport, Tennessee
13. E. A. Terry, Jr., M.D., Louisville, Kentucky
14. Harry Vernon Sims, M.D., New Orleans, Louisiana

14A. William G. Thuss, Jr., M.D., Birmingham, Alabama

15. Allan K. Harcourt, M.D., Indianapolis, Indiana

15A. Eugene L. Walsh, M.D., Chicago, Illinois

16. Elston L. Belknap, M.D., Milwaukee, Wisconsin
17. Tracy E. Barber, M.D., Austin, Minnesota
18. W. L. Mason, Jr., M.D., St. Louis, Missouri

18A. G. Prentiss McArdle, M.D., Omaha, Nebraska

19. Tom Hall Mitchell, M.D., Tulsa, Oklahoma
20. Robert J. Potts, M.D., Dallas, Texas
21. Robert A. Wise, M.D., Houston, Texas
22. George L. Veeis, M.D., Idaho Falls, Idaho
23. Roscoe H. Reeve, M.D., Casper, Wyoming
24. Carl H. Gass, M.D., Morenci, Arizona
25. Charles M. McGill, M.D., Tacoma, Washington
26. Forrest E. Rieke, M.D., Portland, Oregon
27. John E. Kirkpatrick, M.D., San Francisco, California
28. Clarence Lee Lloyd, M.D., Los Angeles, California
29. William H. Wilkinson, M.D., Wahiawa, Oahu
30. Donald C. Bews, M.D., Montreal, Quebec
31. Russell G. Birrell, M.D., Toronto, Ontario
32. A. John Nelson, M.D., Vancouver, British Columbia

INDUSTRIAL MEDICAL ASSOCIATION

★

FORTY-THIRD ANNUAL MEETING
Atlantic City, New Jersey
April 21-24, 1958

★

H. W. Lawrence, M.D., General Chairman
The Procter & Gamble Company, Cincinnati, Ohio

T. M. Thompson, M.D., Conference Chairman
Johnson & Johnson, New Brunswick, New Jersey

John Henderson, M.D., Program Chairman
Johnson & Johnson, New Brunswick, New Jersey

Ralph M. L. Buchanan, M.D.
Phillipsburg, New Jersey
and
Thomas F. Nevins, Jr., M.D.
Esso Standard Oil Company, Linden, New Jersey
Co-Chairmen, Arrangements Committee

George G. Minschwaner, M.D., Banquet Committee Chairman
Trenton, New Jersey

Ralph A. Young, M.D., Publicity Committee Chairman
General Motors Corporation, Linden, New Jersey

J. H. Wolfsie, M.D.,
Scientific Exhibits Committee Chairman
American Cyanamid Company, Linden, New Jersey

Entertainment—Woman's Auxiliary to the IMA of New Jersey
Co-Chairmen—Mrs. C. Scott McKinley and Mrs. T. M. Thompson

★

Members of the Academy of General Practice will be allowed hour-for-hour informal post-graduate credit for attendance at this meeting.

★

SUNDAY, APRIL 20

9:00 a.m.—Registration—Haddon Hall

12:00 Noon—District Counselors' Meeting — Luncheon — Haddon Hall, Mandarin Room (13th floor)

★

MONDAY, APRIL 21

Registration—Convention Hall—Group Meetings and Group Dinners

Presiding—Jerome W. Shilling, M.D., President IMA

Invocation—The Reverend Allan R. Winn, Pastor of the Covenant Presbyterian Church, Trenton, New Jersey

Address of Welcome—David B. Allman, M.D., President, American Medical Association

★

THURSDAY, APRIL 24

8:00 a.m.—Orientation Meeting of New Officers, Directors and Committee Chairmen—Breakfast—Mandarin Room, Haddon Hall

★

MEDICAL SECTION—Convention Hall, Room 20

9:00-10:30 a.m.—The Control of Acute Respiratory Diseases in Industry, with Special Reference to Influenza

Moderator—Melvin N. Newquist, M.D., Medical Director, The Texas Company, New York, New York

L. Holland Whitney, M.D., Medical Director, American Telephone & Telegraph Company, New York, New York

Alexander D. Langmuir, M.D., Director of Epidemiology, Communicable Disease Center, U. S. Public Health Service, Atlanta, Georgia

Edwin D. Kilbourne, M.D., Associate Professor of Public Health and Preventive Medicine, Cornell University Medical College, New York, New York

10:30-11:00 a.m.—Intermission—Visit Exhibits

11:00-12:30 p.m.—Moderator—Norman Plummer, M.D., Medical Director, New York Telephone Company, New York, New York

11:00-11:25 a.m.—Lost Time among Railroad Workers and Steel Workers in the Same Industrial Setting—Robert J. Halen, M.D., Physician, Monongahela Connecting Railroad and Jones & Laughlin Steel Corporation, Pittsburgh, Pennsylvania
(5 minutes for discussion)

11:30-11:55 a.m.—Patterns of Health and Illness in Industry—Lawrence E. Hinkle, Jr., M.D., Associate Professor of Clinical Medicine, Cornell University Medical College, New York, New York
(5 minutes for discussion)

12:00-12:25 p.m.—Manganese Poisoning—Signs and Symptoms—Rafael Penalver, M.D., Department of Legal Medicine and Toxicology, School of Medicine, University of Habana, Cuba
(5 minutes for discussion)

★

THURSDAY, APRIL 24

SURGICAL SECTION—Convention Hall, Room 21

9:00-10:30 a.m.—Moderator—William D. Frazier, M.D., Medical Director, Baldwin-Lima-Hamilton Corporation, Eddystone Division, Chester, Pennsylvania

9:00-9:25 a.m.—Disposition of Hand Injuries in a Steel Mill—Joseph Tauber, M.D., Assistant Works Physician, Jones & Laughlin Steel Corporation, Aliquippa, Pennsylvania
(5 minutes for discussion)

9:30-9:55 a.m.—Current Concepts in Treatment of Peripheral Venous Disorders—Norman Rosenberg, M.D., Director, Department of General Surgery, Middlesex General Hospital, New Brunswick, New Jersey
(5 minutes for discussion)

10:00-10:25 a.m.—Practical Considerations in the Treatment of Burn Trauma—Truman G. Blocker, Jr., M.D., Professor of Plastic and Maxillofacial Surgery, University of Texas Medical Branch, Galveston, Texas
(5 minutes for discussion)

10:30-11:00—Intermission—Visit Exhibits

11:00-12:30 p.m.—Moderator—William D. Frazier, M.D.

11:00-11:25 a.m.—Cardiovascular Emergencies—Robert D. Dripps, M.D., Professor and Chairman, Department of Anesthesiology, University of Pennsylvania Schools of Medicine, Philadelphia, Pennsylvania
(5 minutes for discussion)

11:25-11:55 a.m.—The Treatment of Chest Trauma—Elliott S. Hurwitt, M.D., Clinical Professor of Surgery, Columbia

University, and Chief of Surgical Division, Montefiore Hospital, New York, New York
(5 minutes for discussion)

12:00-12:25 p.m.—Low Back Pain—George S. Hackett, M.D., Consulting Surgeon, Mercy Hospital, Canton, Ohio
(5 minutes for discussion)

★

Thursday Afternoon

COMBINED MEDICAL AND SURGICAL SESSION—Convention Hall, Room 20

2:00-3:30 p.m.—Use of Antibiotics in Industry

Moderator—David E. Rogers, M.D., Associate Professor of Medicine, Cornell University Medical College, New York, New York

Truman G. Blocker, Jr., M.D., Professor of Plastic and Maxillofacial Surgery, University of Texas Medical Branch, Galveston, Texas

Peter Dineen, M.D., Assistant Professor of Clinical Surgery, Cornell University Medical College, New York, New York

Edward F. Roberts, M.D., Director of Clinical Investigation, Wyeth Laboratories, Philadelphia, Pennsylvania

Robert I. Wise, M.D., Associate Professor of Medicine, Jefferson Medical College, Philadelphia, Pennsylvania

3:30-4:00 p.m.—Intermission—Visit Exhibits

4:00-5:00 p.m.—Panel Discussion—Certification in Industrial Medicine

Moderator—James H. Sterner, M.D., Medical Director, Eastman Kodak Company, Rochester, New York

Backgrounds and Policies Involved in Certification in the Specialty of Occupational Medicine—Robert A. Kehoe, M.D., University of Cincinnati, Cincinnati, Ohio

The Nature and Objectives of the Practice of Occupational Medicine as a Specialty—James H. Sterner, M.D.

The Qualifications of the Certified Specialist in Occupational Medicine—A. G. Kammer, M.D., Graduate School of Public Health, University of Pittsburgh, Pittsburgh, Pennsylvania

AMERICAN ASSOCIATION OF INDUSTRIAL NURSES, INC.

Presiding—Gertrude A. Stewart, R.N., President of AAIN

Invocation—Reverend Robert E. Irwin, Our Lady Star of the Sea Church, Atlantic City, New Jersey

Speaker—Dr. Cleo Dawson, Psychologist, Lexington, Ky.

Topic—Let's Live and Like It

SCIENTIFIC EXHIBITS
1958 INDUSTRIAL HEALTH CONFERENCE

★

S-1 Value of Stress Tests in Detecting Coronary Disease
G. P. Robb, M.D., H. H. Marks (Metropolitan Life Insurance Co.) and Brig. Gen. T. W. Mattingly, MC, USA (Walter Reed Army Hospital)

S-2 Vocational Assessment
Kessler Institute for Rehabilitation (West Orange, New Jersey)

S-3 Cytologic Technics for Office and Clinic: Uterine and Gastric Cancer Control
H. E. Nieburgs, M.D. (Mount Sinai Hospital, New York)

S-4 The Postmyocardial Infarction Syndrome
W. Dressler, M.D. (Maimonides Hospital, Brooklyn, N. Y.)

S-5 Attitudes
American Association of Industrial Nurses, Inc.

S-6 ECHO and Coxsackie Viruses
T. M. Rivers, M.D. and H. W. Kumm, M.D. (National Foundation for Infantile Paralysis)

S-7 The Occupational Health Service of the U. S. Army
Lt. Col. E. J. Dehne, MC, USA and R. H. Duguid, M.D. (U. S. Army Environmental Health Laboratory)

S-8 Typical Health Physics Research, Engineering and Educational Activities
Oak Ridge National Laboratory (Union Carbide Nuclear Co.)

S-9 The Occupational Health Program in the Air Force
Lt. Col. G. F. Fisher, MC, USAF (Office of the Surgeon General, Dept. of the Air Force)

S-10 Biochemical Biopsy
F. Wroblewski, M.D. (Sloan-Kettering Institute, New York)

S-11 Analytical Methods Used in Clinical Investigations
L. J. Cass, M.D. and W. S. Frederik, Ph.D., M.D. (University Health Services, Harvard University)

S-12 Pneumoconiosis in the Diatomite Industry
H. J. Magnuson, M.D., M.P.H. and W. C. Cooper, M.D. (Occupational Health Program, U.S. Public Health Service)

S-13 Practical Diagnosis of Surgical Heart Disease
R. P. Glover, M.D., J. C. Davila, M.D. and R. G. Trout, M.D. (Presbyterian and Episcopal Hospitals and St. Christopher's Hospital for Children, Philadelphia)

S-14 The Development of a Proteolytic Enzyme for Surgical Debridement
J. F. Connell, Jr., M.D., L. DelGuercio, M.D. and L. M. Rousselot, M.D. (St. Vincent's Hospital, New York); J. Henderson, M.D., R. R. L. Gaughran, Ph.D. and J. F. Douglas, Ph.D. (Johnson and Johnson Research Foundation)

S-15 The Solitary Circumscribed Dense Pulmonary Lesion
S. Cohen, M.D. and F. Bertone, M.D. (B. S. Pollak Hospital for Chest Diseases, Jersey City, New Jersey)

S-16 Experimental Production and Prevention of Cleft Palate Deformity in Mice and Its Application in Humans
L. A. Poer, M.D., W. Bryan, Ph.D., J. C. Walker, Jr., M.D. and L. P. Stream, Ph.D., D.D.S. (St. Barnabas Medical Center, Newark, N. J.)

S-17 Traumatic Injuries of the Heart and Great Vessels
Brig. Gen. T. W. Mattingly, MC, USA, Lt. Col. L. F. Parmley, MC, USA and Maj. E. J. Jahnke, Jr., MC, USA (Walter Reed Army Hospital)

S-18 Integrated Orbital Implant
N. A. Karakashian, M.D. (Methodist Hospital, Philadelphia)

S-19 Pain Patterns in Abdominal Diseases: Sites and Behavior of Pain in Certain Common Diseases of the Upper Abdomen
L. A. Smith, M.D., N. A. Christensen, M.D., N. O. Hanson, M.D., D. E. Ralston, M.D., R. W. P. Acher, M.D., K. G. Berge, M.D., G. W. Morrow, Jr., M.D. and A. H. Bulbulian, D.D.S. (Mayo Clinic and Mayo Foundation)

S-20 Cerebral Angiography in Head Trauma
J. L. Leger, M.D., C. Bertrand, M.D. and M. DuFresne, M.D. (Notre Dame Hospital, Montreal, Canada)

S-21 Your Ear and Noise
A. Glorig, M.D., A. Summerfield, Ph.D. and H. P. House, M.D. (Research Center, Subcommittee on Noise in Industry)

S-22 Low Back Pain: Diagnosis and Treatment
G. S. Hackett, M.D. (Mercy Hospital, Canton, Ohio)

S-23 Management of the Red Eye
W. H. Havener, M.D. (Ohio State University)

S-24 Electromyography, Its Diagnostic Value in Low Back Syndromes
E. P. Hoerner, M.D. (Newark, New Jersey)

S-25 Conservation of Hearing in Army Installations
Lt. Col. E. J. Dehne, MC, USA and R. H. Duguid, M.D. (U. S. Army Environmental Health Laboratory)

S-26 Radiologic Hygiene Program of the U. S. Army
Lt. Col. E. J. Dehne, MC, USA, Lt. Col. L. C. MacMurray, MSC, USA and R. H. Duguid, M.D. (U. S. Army Environmental Health Laboratory)

S-27 Tracheostomy
J. M. Lore, Jr., M.D. and P. S. Ingrassia, M.D. (St. Clare's Hospital, N.Y.C. and Good Samaritan Hospital, Suffern, New York)

S-28 Lung Cancer and Smoking: Relationship and Changes in the Bronchial Epithelium
O. Auerbach, M.D., J. B. Gere, M.D., H. J. Smolin, M.D., J. B. Forman, M.D., G. E. Muehsam, M.D., J. M. Pawlowski, M.D. and A. P. Stout, M.D. (American Cancer Society)

S-29 Arterial Grafts: Factors Involved in Success or Failure
N. Rosenberg, M.D., J. Henderson, M.D., E. R. L. Gaughran, Ph.D., G. H. Lord, Ph.D., D.V.M. and J. F. Douglas, Ph.D. (Johnson and Johnson Research Foundation, Middlesex General Hospital and St. Peter's General Hospital, New Brunswick, New Jersey)

S-30 Local Steroid Injection Therapy for Traumatic Conditions
E. G. Lipow, M.D., K. M. Kron, M.D. and R. T. Smith, M.D. (Washington, D. C.)

★

Alphabetical Exhibitors List
April 1968

★

Booth 218—ALCON LABORATORIES, INC.

Eye medication with wide application in Industrial Medicine will be exhibited by Alcon Laboratories, Inc. Representatives will be available to discuss new developments in ophthalmic preparations and packaging. They will also be glad to discuss any problems you may have concerning ophthalmic medication for industrial uses.

In addition to the full line of Alcon Sterile Ophthalmic preparations, Alcon-efrin, a specially formulated nasal decongestant without sting or irritation will be displayed.

★

Booth 229—ALLERGENS,
division of Chemical Specialties Co., Inc.

AQUA IVY, AP® the proven POISON IVY AND POISON OAK IMMUNIZER. Proven 93% effective as a prophylactic without side effects.

AQUA IVY, AP® is the whole pyridine extract of poison ivy leaves which is alum precipitated and suspended in saline solution. It is (1) effective, (2) non-irritating, (3) long-acting, and (4) can be administered subcutaneously with little or no pain, and without the usual reaction at site of injection.

Prevents dermatitis from the poison ivy family. Saves busy man hours for those who employ field workers; examples are linesmen, lumbermen, nurserymen, agricultural workers.

★

Booths 408, 410, 412—A. S. ALOE COMPANY

★

Booth 406—AMERICAN FERMENT CO., INC.

★

Booth 116—AMERICAN METER COMPANY, INC.

The American Meter Company exhibit is limited to the smaller sizes of meters used in tests for metabolism, ventilation and air pollution.

The Company products include wet and dry displacement meters with capacities of .05 liter to 165 cu. ft., per minute, spirometers (30 liters to 280 cu. ft.), commercial pressure regulators and calibration and test equipment.

The ventilation tests covered in the medical literature are tidal volume, vital capacity maximum breathing capacity, and walking ventilation. Supplementary or modified tests may be performed by use of Douglas bag.

★

Booth 212—AMERICAN OPTICAL COMPANY
SAFETY PRODUCTS DIVISION

Display features complete line of Industrial Safety Equipment. Emphasis at this time, is placed on a new member of our Ultrascopic Safety Glasses family — the 2-Tone safety spectacle. See

this *true safety* spectacle at our booth along with representative products from our complete lines of Respirators, Goggles, Sound Protectors, Protective Clothing and Accessories. You will also be interested in AO's Industrial Vision Program—a program available to industry which helps you determine and evaluate the visual deficiencies and needs of all employees. See our representatives for product information and technical advice on the AO Sight Screener —the instrument which makes possible our Industrial Vision Program.

★

Booth 326—AMERICAN STERILIZER CO.

AUTOCLAVES

1. Model 613-R—This is our new Autoclave which has become exceedingly popular wherever it has been demonstrated throughout the country. Priced right and the finest in quality and workmanship.
2. Model 23816—Square in size 8x8x16" designed for increased loading capacity.
3. Model 21022—Size 10x10x22"—The unit for Clinics or centralized sterilization. 10" Square Autoclave requires no plumbing connections. Completely automatic.

STERILIZERS

3 sizes—8, 16, 17 inch Portable boiling type units.

CABINETS

Single door with recessed sterilizer.

★

Booths 309 and 311—RESEARCH LABORATORY,
THE AMERICAN TOBACCO COMPANY

The exhibit of the Research Laboratory of The American Tobacco Company will display a colonial background. Samples of the four main types of tobacco used in the manufacture of the modern American blended cigarette will also be on display.

Representatives from the Research Laboratory will be in attendance and will welcome your questions concerning research and quality control in the American Tobacco Company. Technical literature will be available for distribution.

★

Booth 308—THE ARMOUR LABORATORIES

The Armour Laboratories, Booth No. 308, will feature products of importance in industrial practice such as H. P. Acthar Gel, Tryptar Antibiotic Ointment and our newly released Chymar Aqueous. Chymar Aqueous is the first truly aqueous injectable enzyme in a one vial preparation. Our representatives will be happy to discuss with you the importance of Chymar Aqueous in industrial practice.

★

Booth 225—ARNAR-STONE LABORATORIES, INC.

Featuring Americaine Topical Anesthetic Ointment and Aerosol, containing 20% dissolved benzocaine in a bland, water-soluble base for prompt, effective and prolonged relief of painful burns, abrasions, lacerations, etc.

Also, we now have available in ointment form, Americaine with 0.5 mg. Neomycin for relief of pain and protection from infection.

Our representatives will also be glad to discuss new clinical

studies regarding Silicote Skin Protective Ointment incorporating 30% of the dramatic silicone oils in a petrolatum base. Silicote is non-occlusive, allowing normal functions of the skin.

★

Booth 328—ASTRA PHARMACEUTICAL PRODUCTS, INC.
(Manufacturer of XYLOCAINE HYDROCHLORIDE (ASTRA)

Descriptive literature pertaining to preparations of XYLOCAINE HYDROCHLORIDE (ASTRA) for injection, XYLOCAINE OINTMENT (ASTRA), XYLOCAINE JELLY (ASTRA) and XYLOCAINE VISCOUS (ASTRA) for topical application will be available at the Astra booth presided over by G. Vinten Hallock, M.D.

★

Booth 307—AYERST LABORATORIES

The Ayerst Exhibit will feature "Kerodex", for the prevention of contact dermatitis, "Exactin" for the treatment of athlete's foot and other mycotic infections, and "Antabuse", the modern treatment of alcoholism. Our representatives will be pleased to supply information and up-to-date clinical reports on these or other Ayerst products.

★

Booth 312—BAUER & BLACK

★

Booth 213—BAUSCH & LOMB OPTICAL CO.

★

Booth 217—BECTON, DICKINSON AND COMPANY

★

Booth 501—BELTONE HEARING AID COMPANY

★

Booth 227—BLAKISTON DIVISION, McGraw-Hill Book Co., Inc.

The Blakiston Division of McGraw-Hill Book Company will feature at Booth #227 of the Industrial Health Conference the following books: Drill's *Pharmacology in Medicine*, new second edition; Sataloff's *Industrial Deafness*; Drinker and Hatch's *Industrial Dust*; Harris' *Handbook of Noise Control*; McLean and Taylor's *Mental Health in Industry*; Lanvell and Clark's *Textbook of Preventive Medicine For the Doctor in His Community*, new second edition; Hubbard's *The Early Detection and Prevention of Disease*; and consult our representative for advance literature on the new third edition of Harrison's *Principles of Internal Medicine*.

★

Booth 427—THE BOMGARDNER MANUFACTURING COMPANY

The Bomgardner Manufacturing Company will introduce a new concept in the care and transportation of the sick and injured in industrial plants and dispensaries. Shown will be a hydraulically operated transfer cot, which not only raises and lowers with ease, but also has many additional features not available on other types of similar units. Also shown will be a complete line of folding stretchers, stretcher cases, and oxygen therapy equipment. In attendance at the booth will be H. R. Bomgardner and John B. Dunne.

★

Booths 304 and 306—BRISTOL-MYERS PRODUCTS DIVISION

Bristol-Myers will feature BUFFERIN in two special professional packages—the foil-packed Industrial package and the 1000-tablet Hospital bottle. Bufferin's balanced antacid-analgesic formula is safe even for gastric ulcer patients, and is fast-acting and economical too. Popular AMMEN'S Powder will also be on hand, along with MINIT-RUB (topical salicylate), and THERADERM, a successful new polythionate preparation for dandruff control.

★

Booth 503—BUFFINGTON'S, INC.

You are cordially invited to visit the Buffington Booth and learn about those specialties having industrial application—For irritated throats—Synthaloids; for control of common cold—Dolapar; for aches and pains—Dolero Comp.

★

Booth 405—ROBERT BURSE & CO., INC.

Burse Hospital Products, specializing in disposable items for the Medical Department and the Plant, is displaying disposable paper chest examination and x-ray capes—full length paper examination gowns—paper examination draping sheets—paper pillow covers—paper caps and masks—paper professional towels—paper wet strength bath towels—cotton wash cloths, wiping cloths—paper specimen and urine bottles—paper specimen and sputum cups—plastic microscope coverslips and slides—disposable plastic caps and helmets, overshoes and slippers as well as paper shower slippers and waxed klean kan bags.

★

Booth 221—CARBISULPHOIL COMPANY

The display of—FOILLE—the famed burn medication, will be of interest to all concerned with the management of burns and wounds. Also exhibited will be a product of proven value in combating industrial dermatitis—ACTIVOL—a mild liquid soap of exceptional detergent properties.

★

Booth 216—CHATTANOOGA PHARMACAL COMPANY, INC.

EFFECTIVE MOIST HEAT EASILY APPLIED.

Don't miss the demonstration of the HYDROCOLLATOR—a "must" in any Industrial medical installation, be it large or small.

The HYDROCOLLATOR is particularly effective and helpful in your stubborn, difficult back cases.

Visit our booth, and actually try the HYDROCOLLATOR yourself.

A complete line of Master Units will be on display—four models to meet the various needs of industrial medical departments.

★

Booth 413—CHESEBROUGH-POND'S INC.
(Professional Prods. Div.)

New Industrial Size of 'Vaseline' Sterile Petrolatum Gauze.

Industrial medical departments, hospitals, clinics, and first-aid stations always have been in the forefront of the general trend to using prepacked, ready-to-dispense, disposable items. This is

particularly true of sterile surgical supplies for routine or emergency use, in major or minor cases. Among the prepacked, pretested products in widespread use is 'Vaseline' Sterile Petrolatum Gauze. Its makers have now developed a new size, which is a dual-purpose dressing particularly suited to industrial applications. It is a 3x3-inch, 2-ply pad for use as such, but which also can be opened to become a 3x9-inch strip.

★

Booth 202—CIBA PHARMACEUTICAL PRODUCTS INC.

★

Booth 424—THE COCA-COLA COMPANY

Ice-cold Coca-Cola served through the courtesy of the Coca-Cola Bottling Company, Atlantic City, New Jersey and The Coca-Cola Company.

★

Booth 511—COMMON COLD FOUNDATION

Research progress on the common cold with a demonstration of the tissue culture technique which made possible the progress to date on studies of viruses.

★

Booth 201—CONNECTICUT BANDAGE MILLS, INC.

Among the new products featured by this company in their booth will be the "Aluma-foam" fence splint. This new patented product follows the same principle as the "Aluma-foam" finger splint, in that it may be molded and formed to meet the individual patient. This new splint may be used in all emergency fractures, dislocations and sprains which do not call for plaster casts.

This new product is prepadded, soft, comfortable and can be form fitted to each patient. This is just one of the new items now in production which will be featured for the first time at the Convention.

★

Booth 310—DAVIS EMERGENCY EQUIPMENT CO., INC.

Manufacturers of Unit First Aid and Gas Analyzers of all types. Respiratory equipment and Toxic Gas Analyzers, including the Vapotester for Toxic and Combustible Gases and the Halide Meter for the Chlorinated Solvents, in their toxic range.

★

Booth 104—JOSEPH K. DENNIS COMPANY, INC.

★

Booth 102—DESITIN CHEMICAL COMPANY

DESITIN OINTMENT: the pioneer cod liver oil ointment for the treatment of burns, ulcers, wounds, diaper rash.

DESITIN POWDER: pioneer cod liver oil dusting powder for the treatment of intertrigo, diaper rash, exanthema, abrasions, etc.

DESITIN HEMORRHOIDAL SUPPOSITORIES: relieve pain and itching, promote healing, give comfort in uncomplicated hemorrhoids, fissures. Contain no anesthetics or styptics.

RECTAL DESITIN OINTMENT: for effective relief in simple hemorrhoids, pruritus and fissures. No anesthetics.

DESITIN LOTION: soothing, protective, mildly astringent for the treatment of pruritus, poison ivy and non-specific dermatitis.

DESITIN COSMETIC & NURSERY SOAP: supermild, nonallergenic, pleasantly scented, deodorant.

★

Booth 230—DIAPULSE MANUFACTURING CORPORATION OF AMERICA

"DIAPULSE". . . A new Bio-electrical approach to the safe treatment of the whole patient! This revolutionary concept of medicine, researched and successfully applied, by Dr. A. J. Ginsberg, for 25 years, makes available a dramatic therapy and treatment for a broad area of ailments and infections. Diapulse will be of special interest to Industrial Clinicians for their work in combating absenteeism.

★

Booth 214—DOHO CHEMICAL CORPORATION

DOHO CHEMICAL CORPORATION is pleased to exhibit:

AURALGAN—Ear medication in Otitis Media and removal of Cerumen.

OTOSMOSAN—Effective, non-toxic Fungicidal and Bactericidal (gram negative-gram positive) in the suppurative and aural dermatomycotic ears.

RHINALGAN—Nasal decongestant free from systemic or circulatory effect and equally safe to use on infants as well as the aged.

NEW LARYLGAN—Soothing throat spray and gargle for infectious and non-infectious sore throat involvements.

Malion Chemical Corporation, Subsidiary of the Doho Chemical Corporation, is also featuring:

RECTALGAN—Liquid topical anesthesia, for relief of pain and discomfiture in hemorrhoids, pruritus and perineal suturing.

DERMOPLAST—Aerosol freon propellent spray for fast relief of surface pain, itching, burns and abrasions. Also Obs. & Gyn. use.

★

Booth 219—DOME CHEMICALS, INC.

★

Booth 315—DUKE LABORATORIES, INC.

DUKE LABORATORIES, INC., STAMFORD, CONN., ARE DISPLAYING ELASTOPLAST, stretchable, adhesive-surfaced bandages and unit dressings; Gelocast, a prepared Unnapaste bandage; Tecto, a protective emollient cream; Aquaphor, an ointment base, and Nivea Creme, Nivea Skin Oil and Basis Soap for patients with dry, sensitive skin.

★

Booth 302—EATON LABORATORIES

Now for hospitalized patients, lifesaving Furadantin® Intravenous Solution — for severe urinary tract infections when peroral administration of Furadantin is not feasible and for serious infections as septicemia (bacteremia) when the bacterium is sensitive.

Postmenopausal urethritis yields promptly to new Furestrol™ Suppositories. Provides estrogen to reverse the involutional changes of senile urethritis, plus the antibacterial, anesthetic and gently dilating action of the Furacin Urethral Suppository.

An advance in the treatment of vaginitis—Tricofuron® Im-

proved Vaginal Suppositories and Powder. Simple two-step treatment swiftly brings relief and control of vaginal monilinasis and trichomoniasis. Rapid relief of burning and itching often within 24 hours. Eliminates malodor, esthetically acceptable.

★

Booth 422—ENCYCLOPAEDIA BRITANNICA

★

Booth 209—GEIGY PHARMACEUTICALS, DIVISION OF GEIGY CHEMICAL CORPORATION

The GEIGY exhibit will feature BUTAZOLIDIN and BUTAZOLIDIN-ALKA, potent non-hormonal anti-arthritic and anti-inflammatory agent, also effective in the treatment of superficial thrombophlebitis; and PRELUDIN, non-amphetamine appetite suppressant virtually without CNS stimulation. Also on display will be STEROSAN HYDROCORTISONE Cream and Ointment, for comprehensive control of a wider range of dermatoses; MEDOMIN, the hypnotic which provides "natural" sleep; and SINTROM, potent oral anticoagulant with intermediate duration of action.

★

Booth 402—HILLMAN PHARMACEUTICAL COMPANY

Medical Surveys show dysmenorrhea to be a major cause of absenteeism among female employees. There is a constant need for a medication which affords prompt relief of menstrual tension with no accompanying after-effects.

For twenty-five years Hillman's D Compound has been used to relieve dysmenorrhea in industrial dispensaries, reducing time-loss to an absolute minimum.

Stop in at our booth for descriptive literature and samples of D Compound for your clinical trial.

★

Booth 206—ILLE ELECTRIC CORPORATION

ILLE ELECTRIC CORPORATION will display and demonstrate Hydromassage Subaqua Therapy Equipment (Improved Whirlpool Bath) in Booth #206, for the treatment of industrial injuries. Time of disability can be reduced 25% to 50% where this form of Therapy is indicated. When used as a preliminary, time required for manual massage can be reduced 50%. They will also show an improved Paraffin Bath and Stainless Steel Prep Tray.

★

Booth 503—INDUSTRIAL ACOUSTICS COMPANY, INC.

Industrial Acoustics Company, Inc., will display an I.A.C. Model "400" Audiometric Testing Room—which is one of the various models presently used from Coast to Coast by hundreds of Industrial Plants, Armed Service Installations and Institutions.

Literature and technical data describing I.A.C. Noise Control Equipment will include: Quiet Rooms for Shop and Power Plant Offices (stationary & movable); Noisy Machinery Enclosures — Quality Control Acoustic Rooms (including acoustic tunnels of all types); Anechoic Chambers for Research & Product Development.

We would be pleased to have you stop in at our booth to discuss any questions you may have with regard to I.A.C. Equipment.

Booths 325, 327, 329—JOHNSON & JOHNSON

★

Booth 114—JONES, BRAKELEY & ROCKWELL, INC.

The Industrial Division of the Association of American Soap & Glycerine Producers, Inc. is conducting an industry-wide educational campaign on the importance of personal and plant cleanliness in preventing industry's major health hazard—dermatitis—and in reducing the enormous $4 billion cost of non-household sanitation yearly. Its exhibit comprises reprints of feature articles on dermatitis prevention, samples of house organ cartoon strips on personal cleanliness, copies of its two authoritative booklets, "The Prevention of Occupational Skin Diseases" by Dr. Louis Schwartz, and "Building & Equipment Sanitation Maintenance" by J. Lloyd Barron and Albert J. Burner. The booklets are on sale at 50c and 75c per copy, respectively; the other materials are available free of charge on request. Featured are color slides of the Association's newest employee visual aid—an eleven-page cartoon-style flipchart entitled, "How We Can Clean Up Dermatitis," designed for use by supervisory personnel for on-the-job employee education in cleanliness.

★

Booth 106—KAREL FIRST AID SUPPLY COMPANY

★

Booth 118—KEYSTONE VIEW COMPANY

Keystone Occupational Vision Screening equipment will be featured including several new tests recently developed.

★

Booth 205—LICENSED BEVERAGE INDUSTRIES, INC.

Display explaining that alcoholism is a medical and public health problem; that the alcoholic beverage industry supports research through national scientific and medical bodies toward the solution of the problem.

★

Booth 317—ELI LILLY AND COMPANY

You are cordially invited to visit the Lilly exhibit located in space number 317. The Lilly sales people in attendance welcome your questions about Lilly products and recent therapeutic developments.

★

Booths 428, 430—P. LORILLARD COMPANY

P. Lorillard Company invites you to visit the Kent Cigarette Exhibit.

We are presenting the Story of Kent Cigarettes and their unique filter which is more efficient than any other now on the market according to several independent research groups.

A table cigarette box with your signature in gold will be a pleasant souvenir of your visit to the convention.

★

Booth 207—MAICO COMPANY, INC.

★

Booth 411—THE S. E. MASSENGILL COMPANY

Best wishes from Massengill to the members of the Industrial

Medical Association for a most successful and informative meeting! Should you so desire, capable Massengill representatives would be pleased to discuss with you any Massengill products in which you are interested. Products being featured are Adrenosem (the unique systemic hemostat); Hemagenets (the only solid homogenized vitamins); Obedrin (superior weight reducing aid); The Salcort Family (offering a complete range in arthritic therapy); Saferon (the peptonized iron); Massengill Powder (the douche preparation of choice). If you wish them, literature and samples will be available.

★

Booth 314—MEDCO PRODUCTS CO.

★

Booth 301—MERCK SHARP & DOHME, DIVISION OF MERCK & CO. INC.

★

Booth 517—METROPOLITAN LIFE INSURANCE COMPANY

This exhibit is a 3-dimensional display in color. The purpose of it is to acquaint agencies and individuals with the Metropolitan Life Insurance Company's materials which might be helpful to them in their mental health programs.

★

Booth 420—MILBURN COMPANY

New developments in Skin Barrier Protection for Epoxy Resin exposures and complete Dermatitis Prevention Programs—also Chemical Resistant Clothing.

★

Booth 108—MILES LABORATORIES, INC.

MILES LABORATORIES, INC., Elkhart, Indiana. Booth No. 108 Featuring CONCENTRATED *Bactine* . . . bactericide, fungicide, detergent-cleansing formula with topical analgesic and anti-pruritic actions and a wide margin of safety. Miles representatives will explain these industrial uses of BACTINE: dual action cleanser and topical germicide on cuts and scratches; hygienic care of hands; instrument disinfection; pre-injection and pre-surgical prep; and sanitizing-deodorizing equipment, respirators, masks, etc. When diluted with water, each gallon of CONCENTRATED *Bactine* makes eight (8) gallons of standard strength BACTINE. Miles will also feature ALKA-SELTZER, ONE-A-DAY (Brand) Vitamins and TABCIN, and describe their uses in industrial medical departments.

★

Booth 519—MILEX OF NEW YORK

The new MILEX CANCER DETECTION PROGRAM will be featured. It is specifically designed to detect uterine and cervical cancer in the early asymptomatic stages. The office or clinic procedure is swift, atraumatic and accurate. Routine use of this program can virtually eliminate the mortality factor of uterine and cervical carcinoma which claims over 16,000 American women victims annually.

Also on display will be TRICHO-SAN, our effective therapy for trichomoniasis, moniliasis and non-specific vaginal infections; LESTENS, our new treatment for premenstrual tension and dysmenorrhea; as well as other recent gynecological developments.

★

Booths 401, 403—MINE SAFETY APPLIANCES COMPANY

The newest and most compact noise detection instruments and ear protection devices will be featured in the M-S-A exhibit. Other items of safety equipment will include Oxygen Breathing Apparatus, Dust and Gas Sampling Instruments, Skullgard, Protective Hats, Ultra-Aire Space Filters, Artificial Respiration Equipment and Dust Respirators. Representatives in attendance will be glad to discuss your safety problems.

★

Booth 303—THE NATIONAL COUNCIL ON ALCOHOLISM, INC.

★

Booth 418—NEPERA LABORATORIES

Now employees with a head cold can have a convenient treatment in the plant dispensary with the new Biomydrin Nasal Spray —2 cc. atomizer, specially designed for industrial use. The new atomizer is small, fits into the pocket, and contains enough medication to tide the patient over until he can visit his doctor or obtain a prescription at the drug store on his way home.

Biomydrin contains a unique mucolytic agent, Thonzonium Bromide, which liquefies thick mucus secretions and permits the active antibiotic (neomycin and gramicidin) and antiallergic (thonzylamine hcl) agents in Biomydrin to control the causative factors, while phenylephrine hydrochloride opens the airways without congestive rebound.

Also available as Biomydrin F (with Hydrocortisone Alcohol .62%) where additional anti-inflammatory and edema-reducing effects are needed.

★

Booth 404—THE NEW YORK MEDICAL EXCHANGE

Stop at booth #404 where Patricia Edgerly, the Director, will be glad to consult with you regarding opportunities in the field of industrial and occupational medicine, or suggest to you well trained personnel for your medical departments.

★

Booth 211—G. H. PACKWOOD MANUFACTURING COMPANY

Pax Safety Industrial Skin Cleansers including Pax Lano-Sav Heavy Duty Granulated Skin Cleanser is the finest quality industrial skin cleanser on the market today. New products developed by the Pax Laboratories including Pax Silicone and Lanolin Lotions. The two entirely new safe waterless skin cleansers Pax Pharmaceutical Grade for light and medium soil and Pax Extra Heavy Duty for resins, paints, and other hard to remove soils. In addition to the sturdy Model F Powdered Soap Dispensers there is a new Pax C-P Dual Purpose Dispenser which will dispense either a paste, cream, or powdered soap.

★

Booths 110 and 112—PEPSI-COLA COMPANY

★

Booth 415—PFIZER LABORATORIES

Visit the Pfizer display which features the newest in antibiotic potentiation provided by Glucosamine, the enhancing agent of choice. The Pfizer Representative will be pleased to provide you with information on Cosa-Tetracyn, Cosa-Terramycin and Cosa-Signemycin as well as other antibiotics and specialty products.

TECHNICAL EXHIBITS

★

Booth 425—PHARMA-CRAFT COMPANY

★

Booth 228—GEORGE P. PILLING & SON COMPANY

In addition to the Pilling-Abco line of Hospital Supplies, we will exhibit a limited number of Pilling Instrument Specialties which demonstrate the quality and versatility of the Pilling factory. We will make an effort to show items which should interest practically everyone attending the Meeting.

Pilling versatility is demonstrated by our ability to supply a range of products from the most commonly used hospital supplies to the newest and most highly specialized surgical instruments.

★

Booth 223—R. J. REYNOLDS TOBACCO COMPANY

Welcome to the R. J. Reynolds Tobacco Company Exhibit! You are cordially invited to receive a cigarette case (monogrammed with your initials) containing your choice of CAMEL, WINSTON Filter, Menthol Fresh SALEM, or CAVALIER King Size Cigarettes.

★

Booth 426—RICH COMPANY INC.

★

Booths 316 and 318—RITTER CO., INC.

Innumerable Industrial Clinics throughout the country have learned that equipping the modern Ritter way pays big dividends.

More and more Industrial Physicians are finding routine examinations and treatments in Gynecology, Proctology, Urology, E.Er.N.T., and other phases of Medicine easier through the use of Ritter Motor Operated "Multi-level" Tables.

This preferred office equipment enables you to treat *more* patients *more* thoroughly, with *less* effort, in *less* time.

The Ritter Combination Ear, Nose & Throat—Oral and Dental Surgery Unit provides complete facilities for this work at great economy of both space and cost. Truly a combination of Unit and Chair of which you will be proud.

Plan to visit the Ritter Exhibit today, and let us demonstrate the "12 basic positions" obtainable with the Ritter Universal Examination and Treatment Table. Also see the utility and versatility of this combination Chair and Unit, and discuss the many benefits you will derive from this investment in a lifetime of convenience and comfort to both Doctor and Patient.

★

Booth 216—SANBORN COMPANY

Featured at the Sanborn exhibit will be the new and outstandingly successful Model 300 VISETTE—a complete electrocardiograph of full diagnostic accuracy that weighs only 18 pounds. The familiar Model 51 Viso-Cardiette will also be available for comparison—as will the famous Sanborn Metabulator.

For those interested in research, full data will be available regarding Sanborn Recording Systems (single and multi-channel; direct, photographic and tape), Monitoring Oscilloscopes, and Transducers.

Booth 414—SCHENLABS PHARMACEUTICALS, INC.

TECHNICAL EXHIBITS

★

Booth 407—SCHERING CORPORATION

The Schering exhibit will feature CHLOR-TRIMETON, the most effective antihistaminic with singular freedom from side effects; CORICIDIN, the cold treatment that helps minimize absenteeism; METIDERM for practical management of skin allergies; METIMYD and METIMYD with Neomycin for prompt relief and effective treatment of eye injuries and infections.

★

Booth 417—JOSEPH E. SEAGRAM & SONS, INC.

Congeners (fusel oil, aldehydes, acids, etc.) are compounds found in all alcoholic beverages that provide the taste, bouquet and color. In too high concentrations, however, they can cause undesirable after effects. This exhibit, based on analyses by Foster D. Snell, Inc., consulting chemists, shows how leading brands of various alcoholic beverage types, differ in their congeneric concentration. Physicians who advise moderate drinking for some of their patients, can be guided by these findings.

★

Booth 305—SMITH, KLINE AND FRENCH LABORATORIES

'DAPRISAL' and 'EDRISAL', two on-the-job medications that relieve both the physical and psychic aspects of pain, and 'TEL-DRIN', for prompt and sustained antihistamine effect, are featured along with SKF's outstanding tranquilizers and antiemetics: 'COMPAZINE' and 'THORAZINE'. Also on view are SKF's unique Spansule sustained release preparations, each of which provides 8-10 hours of therapeutic effect with a single oral dose. Trained SKF Representatives will welcome the opportunity to discuss with you SKF products, old and new, and to be of help in any other way they can.

Booth 402—E. R. SQUIBB & SONS

★

Booth 206—STEPHENSON CORPORATION

Be sure to see the latest models of the Stephenson Minuteman and Portable Resuscitators. They are ideal for industrial plants large and small because of their compactness and their versatility in all industrial breathing emergencies.

Be sure to see also the latest in Chemical Tests for Intoxication including the new Breathalyzer and the Drunkometer. They help solve an old problem in a manner popular with both management and labor.

See the Collapsi-Cot—ideal stretcher for patient transportation in industry.

★

Booths 513 and 515—SUGAR BEET PRODUCTS CO.

You will want to see how to handle safely and efficiently those tough soils not easily removed by soap and water and keep the workers out of harsh solvents.

You will want to see the very latest and most modern skin cleanser. An entirely new concept that offers safety, efficiency, and economy.

TECHNICAL EXHIBITS

★

Booth 429—TAILBY-NASON COMPANY, INC.

Tailby-Nason Company, Inc. introduces BETADINE™ Antiseptic, a most recent advance in the field of antisepsis.

BETADINE (Povidone-Iodine) has all of the germ killing power of iodine, without the stinging, corrosive or poisonous action of iodine.

We will be pleased to discuss with you the many important industrial uses for BETADINE such as burns, contaminated wounds, and other emergency situations.

We are also presenting SUPERTAH ointments, the acceptable white tar ointments for various types of industrial dermatoses.

★

Booth 204—TECT, INC.

Offering VYTHENE stabilized 1,1,1-Trichloroethane replacing Carbon Tet, and highly flammable solvents. A complete line of 36 different safety solvents and other metal cleaning compounds is also available.

★

Booth 505—TITMUS OPTICAL COMPANY

The new T/O vision tester will be demonstrated. It incorporates many features to insure more precise vision tests with more ease and facility in the administration of them. The new T/O 7 product line of eye protection and ophthalmic products will be shown.

★

Booth 216—UNION INDUSTRIAL EQUIPMENT CORP.

Uni-Jet

Lead-in-Air Analyzer

The "Uni-Jet" has been adapted to provide a simple means of sampling the atmosphere inside of tanks which have been used for Tetraethyl Lead. This adaptation provides a convenient "Freon"-powered explosion-proof means of taking samples of air up to 2 cubic feet in these potentially hazardous atmospheres.

This "Uni-Jet" sampling unit has been incorporated into a complete field apparatus for rapid determination of the concentration of organic lead-in-air by a "dithizone method". Data is presented and procedures are given for operation of the field apparatus.

★

Booth 202—UNITED STATES SAFETY SERVICE COMPANY

SAFETY SPECTACLES—Featuring modern Styl-Ize S-7 Shape with either Optilite or Hardened Glass Lens in Plano or Rx. A complete Head and Eye Protection Program.

"PEP-UP IMPREGNATED SALT TABLETS"—A special impregnation process puts a coating around each salt crystal in each tablet which assures slow, controlled dissolving and completely eliminates nausea. At the same time salt is immediately made available to the system with no delay.

SAF-CO-METER—A small, light, accurate, portable carbon monoxide indicator in low cost field. Will accurately detect concentrations of CO well below threshold limits.

TECHNICAL EXHIBITS

★

Booth 416—THE WHITEHALL ELECTRO MEDICAL CO., INC.

Please be sure to visit our booth for a personal demonstration of the Whitehall "One Motor" Mobile Whirlpool Bath—the whirlpool equipped with a turbine assembly that functions as both agitator and emptying device—two operations, agitation and emptying, are combined into a single motor driven system. All operating parts are concentrated in a single device for greater efficiency of operation and simplification of maintenance problems.

Also on display will be the Whitehall X-Ray Developing Tank with such features as: all stainless steel (type 316) construction; removable inserts that make cleaning a simple matter; brass and bronze plumbing mounted on the outside permitting a larger and unobstructed wash area inside; polished satin finish.

★

Booth 330—WHITEHALL PHARMACAL COMPANY

★

Booth 313—WILMOT CASTLE COMPANY

What a difference! Here at last is an office autoclave with all the restful styling of a new car; choice of three colors, streamlined, modern "up-front" look.

And Castle's new No. 999 boasts simpler single handle control, faster heat-up, safety piping, built-in timer, pressure switch, and visible water level gauge. Best of all, it's got 20% more capacity —even comes equipped with its own water-demineralizer.

Don't miss the Castle "999" at this show! And when you visit the Castle booth, plan to take a look at the other surgical lights and sterilizers which will be on display. These will include the fast, portable "777" Speed-Clave Autoclave and the full line of Castle surgical spotlights and overhead illuminators.

★

Booth 226—WINTHROP LABORATORIES

Neo-Synephrine Compound Cold Tablets, New synergistic agent containing the orally effective respiratory decongestant Neo-Synephrine HCl in combination with an analgesic antipyretic and antihistaminic.

A.P.C. with Demerol tablets for potentiated pain relief. Each tablet contains aspirin 3 grains, phenacetin 2½ grains, caffeine ½ grain with Demerol hydrochloride 30 mg. A.P.C. Demerol tablets combine marked potentiation of analgesia with mild sedation and spasmolytic action. They do not cause constipation nor interference with micturition.
