Here's how the Never Fail Plan gets profitable painting

It's a "Go-Getter" that has produced business for thousands of prog painters thrnout the United States. It is now ready to do the same

THE property-owner usually thinks of painting chiefly in terms of what it is going to cost. He loses sight of the benefits to be derived in the way of improved real-estate value, protection from decay and the pleasure he and his family will take in the improvement.

The Never Fail Plan makes him look upon painting in the right light. It shows him that money spent for paint is well invested—it makes him want to paint. That's why it works in the majority of cases.

The Never Fail Plan will work for you as it has for other painters. We want to show you that it will work. Send us the names of ten property-owners in your neighborhood whose houses you want to do. Doubtless you can easily pick out ten houses that actually need painting.

The Never Fail Plan makes owners want to paint

Immediately upon receipt of your list of ten names, we mail to each a personal message on the subject of painting and a copy of a beautifully illustrated book in colors, full of interesting information to any owner of a home.

In this message we point out the advantages of properly painted houses and buildings from the standpoint of a dollar-and-cents investment for the owner. We show the owner that it is his money which is wasted, his property which deteriorates because of a lack of paint protection. This message is aimed to excite his attention and increase his interest in painting.

We emphasize the importance of getting a good job, of engaging the right painter, of selecting the right materials. We explain the superiority of a first-class job made with Dutch Boy white-lead. We prove to him that good materials and good workmanship are cheapest in the long run. We overcome his resistance to the point where he is favorably inclined to have having the job done.

You go get the business

After mailing the personal message and the booklet, we notify you. At the same time, we send you a copy of the book and the letter, thus acquainting you with what we have done. You then make it a point to call on the owner within the next two or three days.

A welcome will await you in almost every home. The owner is ready to talk business. He wants to know all about materials; how long the job will take; how much it will cost.

Thousands of painters tell the same story

We have taken at random a number of letters from our files and quote from them to show you how painters in every part of the country regard the Never Fail Plan.

THESE ARE ACTUAL FACTS

What They Have Done You Can Do

Your Never Fail Plan was a hummer. Four of the men came to see me about their jobs before I had time to go to them. I expect to get the rest.

E. K. Annas, Ainsworth, Iowa.

I used the Never Fail Plan two years ago with such wonderful success—securing nine exterior contracts from ten prospects—that I want to take it up again.

George B. Lefevre, Hartford, Conn.

I secured six jobs from the list sent you last fall.

Charles P. Wilson, Bridgeport, Conn.

I landed five jobs thru the Never Fail Plan and I know it is a good plan.

Charles Ellisch, Jr., St. Louis, Mo.

Your Never Fail Plan has been very successful. I got three-fourths of the prospects whose names I sent you.

K. C. Arness, Bismarck, N. D.

Out of the eleven prospects you mailed the Never Fail Plan to, seven of them gave me their work. Two more have agreed to have their houses painted this spring, making a total of nine out of eleven.

Curtis Rose, Somerville, Tenn.

The Never Fail Plan applied to twenty of the hardest men in the country to do business with secured seventeen big jobs, none of which could be obtained before.

E. W. Kern, Andalusia, Ill.

As a result of the ten letters you sent out I landed seven jobs and am to do another in the spring. Thank you very much for the help.

Harry G. Thompson, Ohio City, Ohio.

Out of twelve names sent you I secured ten jobs.

Frank Cowgill, Ottumwa, Iowa.
