P Ex 2866

PCB's

dairy cow future - analytical ? summary comparison
extra PCB's
fires

- PCDF's from chlorobenzene fires
- effect of epoxides on PCDF formation from PCB's arcing, fires
- effect of Rxn temp + time on yield
- Rxn conditions in transformer fire - what burns
- metal & catalysis, products of other combustion (PVC, rubber belts...)
- → 12-18 months time frame

what are Rxn conditions in transformer fire
what burns - TCB₂, insulation, mineral oil, PCB's
