...C Rejects LBJ's ...et Policy Defense

...G BEACH (AP) — ...alifornia Democratic ... rejecting President ...s nationally tele... defense of U.S. Viet... policy, went ahead ... with plans to oppose ... n with a peace can...

...e again we have ...for new directions ...ve had these hopes ... said a statement ...erald Hill, president ... 33,000-member lib... roup which has con... y opposed U.S. in... ...ent in Vietnam.

Hill predicted approval of a plan to enter a slate of peace delegates in next June's California primary, and other leaders of the council agreed. Some 1,200 delegates representing the membership will vote on the plan today.

The council's plan failed to get the specific endorsement of the convention's keynote speaker, John Kenneth Galbraith, chairman of the Americans for Democratic Action.

But, without mentioning names, Galbraith said he hoped that "come next summer we will have candidates for the nomination that avow the liberal tradition by which Democrats alone can succeed and by which, alone, they deserve to succeed."

His speech was prepared for today's opening major session.

Galbraith, former ambassador to India, made it clear he felt "liberal Democrats everywhere in the United States are in dissent from the foreign policy" advocated by Johnson.

While not pledged to any specific candidate, the slate would be bound to support someone who favors negotiations, an end to the bombing of North Vietnam, and withdrawal of American troops.

Time Bomb Explodes

TRENTO, Italy (AP) — A time bomb in a suitcase taken off a passenger train exploded in the station of this north Italian city today as a policeman sprinted with it in his arms to get it away from the train passenger coaches. He was killed and two other persons were wounded.

...Peninsula

With racing at Mosport Park, Ontario, concluded, attention of the sports car world is now focused on the Monterey Peninsula where the fourth in the six-race Canadian-American Challenge Cup series will be run Oct. 13-15.

Tickets for the 1967 Monterey Grand Prix, run on the famed 1.9 mile Laguna Seca road course, are now on sale throughout Northern California.

With race day only two weeks away, officials of the Sports Car Racing Association of the Monterey Peninsula (SCRAMP) met again yesterday to discuss final preparations for the $75,000-plus race, richest in Peninsula history.

Sponsored by SCRAMP with proceeds going to charity, the Monterey Grand Prix on Sunday climaxes three days of sports car racing at Laguna Seca.

Top Drivers

Entries have been received at the SCRAMP office from top drivers and cars throughout the world. All are competing for some half-million dollars in prize money offered for the six-race Can-Am series.

As it has in the first three races — Road America, Wis., Bridgehampton, N. Y., and Mosport Park — the McLaren racing team will provide the entries that drivers must beat at Laguna Seca to earn a shot at the Challenge Cup title.

New Zealanders Bruce McLaren and Denis Hulme have confirmed their entries. The balding Hulme has won all three races in a Chevy-powered McLaren group seven sports car; McLaren has been second twice and third once is a two machine.

However, Hulme, who has a commanding lead in the point standings, and the second place McLaren will face their toughest test at Laguna Seca. Hulme has driven the track only once while McLaren has always had trouble in Monterey.

It is a matter of record that no foreign driver has won at Laguna Seca since Stirling Moss, at the wheel of a green Lotus, took victories in the first two Monterey Grand Prix races.

Hill Wins

Last year, while John Surtees of England dominated the Can-Am series, he failed at Laguna Seca as Phil Hill rode under the checkered flag in a Chaparral. Surtees is currently in third place in the point standings.

Current standings after three races (points awarded on a 9-6-4-3-2-1 basis for finishing) are: Hulme, 27; McLaren, 12; Surtees, 7; Mark Donohue, 6; George Follmer, 5; and Mike Spence, 4.

Several drivers are bunched with 3 and 2 points while Carmel's Chuck Parsons is in the 12th spot with 1 point.

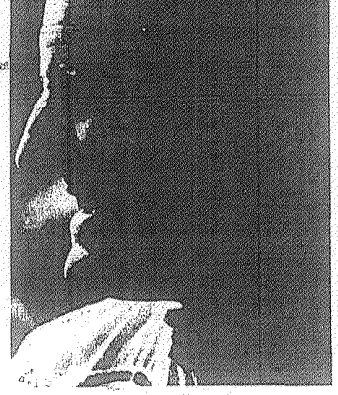
Ned Simpson, SCRAMP general manager, had good news at yesterday's meeting when he announced that Shelby-American Enterprises would be at the track with Jerry Titus behind the wheel of a group seven King Cobra.

Simpson also told SCRAMP officials that all access roads — which have been paved to eliminate much of the dust that has irritated spectators in the past—are now ready with only striping left to be done.

SCRAMP officials also discussed the many factors involved in staging of a race of such importance. None of them—ticket selling, track maintenance, grandstands, concessions, trophies, security, directional signs, parking, etc.—is expected to pose a problem.

But officials are putting in many long hours to make sure that no problems arise.

On the Monterey Peninsula, tickets for the 1967 Monterey Grand Prix can be purchased at the SCRAMP office in the USO building at Webster and El Estero; British Motors, 777 Del Monte; Wester Motors, 1187 Del Monte; and the Monterey Peninsula Chamber of Commerce, Franklin and El Estero.



New Zealand Speedster

New Zealander Denis Hulme will be the man to beat in the 1967 Monterey Grand Prix climaxing a weekend of sports car racing Oct. 13-15 at Laguna Seca. Driving a McClaren M6A-Chev, Hulme has been in the winner's circle in the first three races of the six-race Canadian-American Challenge Cup series. Hulme holds a comfortable lead in the point standings going into the Monterey race sponsored by the Sports Car Racing Association of the Monterey Peninsula.

Olivier to Canada

LONDON (AP) — Sir Laurence Olivier, 60, apparently recovered from a recent illness, went to Canada today for a six-week tour with the National Theater Company.

Herb Powers Answers Your Insurance Questions

QUESTION: Will automobile auto insurance pay for damage to luggage from a fire in the seat cushion caused by a cigarette?

ANSWER: No. Personal effects are not covered by auto insurance. There are other forms of insurance which would cover that kind of loss.

This public service is our way of advertising. Your insurance questions will be answered without charge or obligation if you'll send or bring them in.

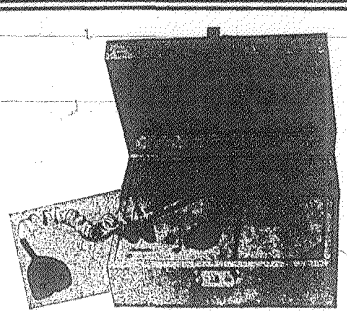
VOGUE SAYS:
READY BEAUTY

. . . interest in facial exercise is on the upswing in this country. (And it is, indeed, if our reader mail is any whether-or-not vane.)

Although we are not experts in translating the clinical details of the studies done with test subjects of the Zeigler Facial Exerciser, we are aware of the fact that some of the best-kept faces in the world keep face with this kind of electronic stimulation. In the United States, any student of the facial-muscle-training via electronics knows about Zeigler, the acknowledged pioneer in getting an electric facial exerciser into private hands, into homes, into daily routines.

The principle behind the Zeigler machine is an old one —facial exercise plus deep stimulation. By firming and toning the muscles which manage the contours around the eyes, cheeks, chinline; these contours may be greatly jacked up. By enlivening circulation: texture, colour . . . can make better, fine lines and wrinkles diminished.



Apart from what time does to faces, there is a terrific amount of unnecessary facial movement: twitches, the crevices in the faces of the over-vivacious, of the perpetual smilers, frowners, squinters). Zeigler feels it has found the way around this by keeping the machine's action gentle. A unique wave pattern holds the current flow to a minimum while retaining the voltage necessary for meaningful results. From a small, portable box, tiny electronic signals are sent to delicate muscles—strengthening them quietly, working up circulation without stretching the skin.

Major events that daily use of the Zeigler machine on . . . counter points out: the face is rapid, easy, simple and has accomplished, according to documentation: temporary of . . . expression lines . . . tightening of skin . . . enhancement of skin quality.

. . . In a recent discussion of electric face exercisers, a noted plastic surgeon said: "They appear to increase the circulation of the face. Anything that does that is valuable."
