AROCLOR DRUMS

H.C.C. 5/17/67 memo to H.L.W.

H. C. Carder
St. Louis

This Copy For

L. C. Fuhrmeister
J. C. Bryant
V. R. Haupt
P. C. Benignus - St. Louis

Final recommendations for Aroclor drum linings have been delayed pending receipt of firm information on the comparative costs of impregnated (Porocel) epoxy-phenolic and Dalbon double coated drums. The costs quoted at the Aroclor meeting were preliminary and there is now some reason to suspect that the figures quoted for impregnated epoxy-phenolic may have been low. If that fact is true, it and the technical difficulties of assuring good quality Aroclor shipments (free of foreign particle contamination) may shift our recommendation to Dalbon. We will keep you advised.

H. L. Williams
