Dear Jim,

Union Carbide would be interested in presenting a paper at the cancer prevention and control seminar sponsored by the Texas Department of Health in Austin, December 2 and 3, 1982.

The subject - but perhaps not the formal title - would be "Investigation of Brain Tumor Risks at Union Carbide's Texas City Plant". The author/speaker would be Dr. Susan Austin, Corporate Epidemiologist, Union Carbide.

If there is interest in such a presentation, we should advise Dr. Austin as soon as practical. I would prefer that the seminar leaders contact her directly at the address and phone number below.

Thanks for contacting us on this matter.

Sincerely,

D. L. Engle
Plant Manager
