McClure

he thought if current
~~[illegible]~~ if mat'l passed test, he could go ahead.

Not the way EES + Zapp Wority,
+ Hornberger heard it.

He will call Dr. Zapp.

Tom Mathews

Dr ~~Zapp~~ Hubick

1. Talc OK if essentially free from Asb. fibers?
if absol. free – not problem
some comm. talc – add tremolite which is asb.
if less than 10% fibrous talc
at Louisville ~~24~~ % 20 mppcf

2. Can we use asbestos as long as we ~~if we~~ don't sand it.

effect in lungs same whether stiff or not

Paint? – Possible problem with 1 time use

Body filler? – tell customer, or consider radiators

Agrees that we should look
at samples for fiber anyway
Repres. sample ~ 4 oz

A. - Review of Current Mat'l & Procedures

I. Current Mat'ls. - Comm Use

(1) Review toxic prop. + handling methods
(2) check on contaminants
ex.

Aromatic diamines

benzene as contam

II. Mat'ls Planned for new Products

III New Mat'ls used in Lab - Cover in Safety Mtg
Safety ch. M. Schaeffer?

toxicity

safe handling

B. Continuing

1. Indoctrinate people to check with us on hazards of new mat'ls.
use Tox. Bulletins for specifics as well as reminder
2. Keep abreast of new prod. via research reports, staff notes etc.
