

Evergreen
 events Night was celebrated at April meeting of the Evergreen Club, held at the Evergreen school auditorium.
 Neil Nelson and Phillip Ramos gave a report on the 4-H activities at Cow Palace. Nelson's exhibit was an Angus steer which led top good while Ramos' was a Jersey bull which was second in the second group. Jove Sta. another member of the green Club exhibited two third Steers, one of which was and choice while the other one graded top good.
 A club's plans to invite Mt. Diablo 4-H Club to a winner were discussed. Beverly Casho, are Rhonda Phil Casho and Neeson were appointed as committee on arrangements.

Clam Curtis farm advisor said the 4-H Club vegetable project. He stressed the importance of getting the garden early and good care during growing season. He said that project could be a profitable one many boys and girls.

During the meeting Sharon donated a large plaque to 4-H Club. This plaque is to be

Changes on Farms

According to the new employment law, children under 18 years of age cannot be different than adults in many ways.
 The new law and hour law should be in effect of such nature. It was permitted that the law and legally re-stricted hours. Now children of 16 and 17 employed outside of the hours for the school district they are living.

improve farm vegetation methods and cultural practices, will cover the midwest, eastern and northwestern States, including a three-week summer school at Colorado A&M College at Fort Collins, Colo. During Bernard's absence, W. R. Berkley will be acting director of the Extension Service staff.

Better Maple Syrup

Maple syrup processors plan to use a new method this season to strengthen the natural maple flavor.

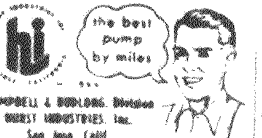

The Agriculture Department says the new process will be used to make superior blends and other maple products, and promises to expand outlets for better quality maple syrup. It also will tend to give consumers improved maple products at lower costs.

for HIGH CAPACITY Pressure Systems — A BETTER PUMP

TURBINE PUMPS
 In pumps, like everything else, Turbine is the only one that is perfect. It pumps water from gardens and massive trees. Used in drills, design and more heavy parts make it pump a fine flow to the above and can work at high pressure ratings.
