MOTORS AND CONTROL FOR HEATING, VENTILATING AND AIR CONDITIONING SYSTEMS

Type CS, Squirrel-Cage Motor

Type SK, Direct-Current Motor

Class 10700 Auto Starter

Class 7210-B Regulator

Motors—Westinghouse motors and control can be supplied for practically all demands within the heating and ventilating engineer's field of activity. Noiseless operation, close speed regulation, and dependability in service are their recognized characteristics.

Motor Control—Westinghouse Electric manufactures manual and magnetic starters and speed regulators to control motors in all applications. By specifying Westinghouse starters and regulators to operate Westinghouse motors, the responsibility for the successful operation of the installation is placed upon one manufacturer.

Products

Centrifugal Pumps For All Purposes—Single and Double Suction, Single and Multistage, Horizontal and Vertical. Steam Pumps—Duplex and Simplex, Inside Packed and Outside Packed. Vacuum Pumps and Condensers.

Class S Double Suction Centrifugal Pump

Centrifugal Condensation Return Pump and Receiver

Horizontally divided casing. Extensively used with air washers, and for circulating systems and booster service.

Also built vertical with receiver pit. Especially adapted for low pressure boilers. Automatic in operation.

Duplex Steam Pump and Receiver

Entirely automatic. Can be furnished for high or low boiler pressure.

Automatic Sump Pump

Self contained. Ball bearing thrust with automatic oil lubrication.

COMPLETE CATALOGS WILL BE FURNISHED UPON REQUEST
