Vos, Institute of Veterinary Pathology, Utrecht, for helpful discussions of analytical methodology; A. S. Kende, Department of Chemistry, University of Rochester, for providing an authentic standard of 2,3,7,8-tetrachlorodibenzofuran; and F. C. Walls for assistance with the mass spectrometry. Research was supported by the Canadian Wildlife Service, the National Aeronautics and Space Administration (Grant NGL 05-003-003) and the National Science Foundation (Grants GX-32885 and GB-36593).
