A. Contractor Safety

There were no recordable injuries in June. The total recordable injury rate so far this year is considerably improved from 1983 (3.1 vs. 5.3).

B. CED Safety

The recordable injury rate is extremely high due to the fact that only 2,000 hours were worked and there was a recordable injury in June to an employee of Continental Slip Form Builders.

A. Annual Safety and Housekeeping Inspection

The inspection is scheduled for September 19-21, 1984, with a feedback session scheduled for Monday, September 24. Ray Forsthoffer and Joe Stal reviewed details of the inspection planning. The theme for the inspection will be "Safety Through Employee Involvement". No overall plant rating will be given but outstanding groups and areas will be highlighted.

B. 3rd Quarter Safety and Housekeeping Inspection

This is scheduled to be conducted the week of August 6. It will be aimed at preparing the plant for the Annual Safety and Housekeeping Inspection.
