CONTROLS

Bringing blowdown under control (charts & table) ....Oct.—126
Diesel-engine governors. E. J. Kates Pt 1 Mar. *71
What does speed regulation mean? Pt 2 Apr. *87
How hydraulic governors give better control for modern diesel engines. Pt 3 ....May *98
Isochronous hydraulic governors for exact engine speed control. Pt 4 June *92
Diesel governor modification and use. Pt 5 ....Aug. *95
Feedwater regulators—don't murder them. John Gorrie ....Dec. *116
Human engineering—an aid to instrument and control design. Dr. B. J. Cowner ....Nov. *84
Moving stairway—motor controls. F. A. Annett ....Aug. *120
Refrigeration questions and answers: special control valves for your system. Tyler Hicks ....Sept. *118
Television sees where you can't look. Apr. *78
Tried and tested combustion controls reduce packaged boiler ills. ....Feb. *92
Unattended refrigeration warehouse runs smooth with remote signals. N. R. Beras ....Jan. *90

Cooker

Venting vegetable cooker exhausts steam. A. Holt (P.I.) ....Jan. *128

COOLING TOWERS

Key to better cold-job output. ....Jan. *116
Metallised floors don't corrode. L. Hansen (P.I.) ....June—132
One sure way to prove out your cooling tower repairs. T. W. Reynolds....May *124
Recirculating-water systems need expert treatment supervision. S. T. Powell (charts) ....Sept. *86

CORROSION

Boiler scale wages 5-pronged attack to cover surface areas. Paul Brindisi Apr. *94
Danger! boiler scale at work. Paul Brindisi ....Jan. *84
How we cured condenser tube corrosion. H. Woldingh (charts) ....Jan. *78
Hydrazine: new aid to water treatment. E. R. Woodward (tables) ....Nov. *91
Old steel stack gets new lease on life. J. A. Swanson (P.I.) ....Jan. *126
Recirculating-water systems need expert treatment supervision. S. T. Powell (charts) ....Sept. *86
Save critical parts from corrosion and wear—pad with neoprene....Jan. *103
Sludge protects underground pipe. J. D. Constance (P.I.) ....Apr. *130
Superheater slag bows to additives. Mellroy, Holler & Lee ....Mar. *86
Tubular air heaters—preventing corrosion and solid build ups. Rothemich & Parmahian (table) ....Sept. *110

COSTS AND PERFORMANCES

Air conditioning gives you fast money return. H. P. Bailey ....June *73
Blower ups production, saves over $10,000 a year. H. Ulmer (P.I.) ....May *130
Boiler-water service without treatment at Baylor Hospital, Dallas, Tex. brings on replacements. Matt Jones ....Apr. *105
Capacitors pay off with first year zooming power factor from 72 to 88%. E. W. Dougherty ....July *84
"Cards slash maintenance." T. J. Ellis June *109
Compressing air—report. Tyler Hicks (tables) ....June *86-104
Consumers Power's smart insulation methods cut cost in modern station (table) ....July *73
Cost of heat loss—insulated vessels (chart) (Power's Data Sheet)....Oct.—125
Coupling maintenance with operation gives ideal plant team. F. A. Hinchcliffe ....May *92
Deaerating heating proves versatile tool in large, expanding plants. Calise & Stenard ....Feb. *78
Demineralizer silica process-water costs for the electronics industry. E. H. Clohesey ....Mar. *89
Design features of Canadian hydroelectric projects analyzed. Ackerll & Simeon Feb. *86
Double reheat cycle—the next step. Shannon & Bailey ....Feb. *82
Elevators—freight elevators modernized at one-third cost of new units. Price & Willeke ....Dec. *128
Field tips cuts package-boiler choice. P. F. Hohnholt ....Sept. *77
Figuring coal costs — charts. C. W. Stevens (Power's Data Sheets)....June—103
Grand Haven, Mich. municipal plant thrives with more diesels. J. S. Sims Nov. *78
Hard surfacing. Steve Elonka (report) Mar. *107-122
Heating-system maintenance as a long-range operating program. T. J. Barrett July *129
High-density burundum speeds up coal crushing for laboratory analyses. W. W. Perkins ....May *80
How to compare automatic-extraction steam-turbine projects. E. V. Pollard (chart: & tables) ....Apr. *96
How to organize your new power plant. D. C. Swift
Pt 1 $15 items to follow up in designing a new plant. ....June— 78
Pt 2 Tips on coordinating station construction and start ups....July— 88
Pt 3 Plant personnel make or break station operation and maintenance Aug.— 92
Pt 4 Safety, reliability and economy: watchwords for a topnotch station Nov.— 82
How to plan and engineer your piping systems using slip expansion joints. A. L. Aicher ....Feb. *84
Industry's experts fight industrial plant power costs. C. S. Robinson & others (tables) ....Mar. *100
Know-how plus planning expands 50-year boiler for change from coal to oil. W. Godley ....June *114
Lewis Flight Propulsion Laboratory — widest possible fuel flexibility gives lowest-cost steam output. G. G. Reed Mar. *94
Maintenance welding pays. Russ Krenbel Sept. *105
Modernization has to be "sold". ....Aug. *71
Piping—model tests cut design and fabrication costs. J. F. O'Rourke....Sept. *90
Process pump costs cut with today's designs. R. G. Hilleker. ....Apr. *77
Pumped storage capacity improves Rizel Switzerland power system's operation Apr. *84
Recover waste heat in plant exhaust air to cut steam and fuel costs. Howard McCall (charts & tables) ....Mar. *84
Regular turbine care pays big dividends. Harry Neary ....Apr. *108
Renovation roundup (charts & tables) Mid-Sept. *63
Repair sprung crankshaft in place and save $$$. Steve Elonka....Jan. *110
Save money! rent an air compressor. L. B. Schramm. ....Dec. *123
Stop wasting man-hours and use power tools. Steve Elonka....Oct. *102
Tips on buying and making power—renovation roundups (chart)..Mid-Sept.— 70
To burn wood efficiently choose properly designed combustion chambers. M. F. Anders (tables) ....Apr. *90
Today's electrical practice. J. J. O'Connor (report) (charts) ....Oct. *78-124
Couplings—aligning couplings and other handy indicator checks. Steve Elonka Apr. *113
Maintenance with operation gives ideal plant steam. F. A. Hinchcliffe....Mar *92

Defense digest....Jan.—146; Feb.—180; Mar.—146; Apr.—168; May—182; June —146; July—148; Aug.—146

DESIGN

How to organize your new power plant. D. C. Swift
Pt 1 $15 items to follow in designing a new plant ....June 78
Pt 2 Tips on coordinating station construction and start ups....July— 88
Pt 3 Plant personnel make or break station operation and maintenance Aug.— 92
Pt 4 Safety, reliability and economy: watchwords for a topnotch station Nov.— 82
Human engineering—an aid to instrument and control design. Dr. B. J. Cowner ....Nov. *84
Process-pump costs cut with today's designs. R. G. Hilleker....Apr. *77
Rotary-piston pumps: how they can do a job in your plant today. Fred Annett Nov. *116
Superpressure feed pump design. Hans Cartmann ....Nov. *71
Ductile-iron—a new design material steps into your plant....Feb. *122
Dust collection see Smoke abatement

*Illustrated '(Ed.) Editorial (P.I.) Practical ideas

EDWARDS, GEORGE

The alchemist ....Jan. *156
George Edwards Scrapbook....Apr. *168; May *178; June *168; July *168; Aug. *166; Sept. *184; Oct. *188; Nov. *186; Dec. *170
Medicine man ....Feb. *170
Square peg! ....Mar. *146

ELECTRICITY

Ardnacrusha Hydro Station in Ireland uses electrical test program to build down hydro-plant outages. F. Byrne Mar. *80

Batteries
Good charging methods, maintenance stretch battery life....Oct. *148
Storage battery repair....Sept. *138
Unharmed by Sunrise-treated water Aug.—133
Yoke-hook speeds up battery change (P.I.) ....Aug. *124

Cables—typical cable applications in generating stations. F. Aime (Power's Data Sheets) ....July—106

Capacitors pay off within first year zooming power factor from 72 to 88%. E. W. Dougherty ....July *84

Central station capability grows to new highs ....Aug.— 81

Coming through in a pinch. Sergio Martinez Jr. ....Jan. *120

Conduits—pointers on bending thin-wall conduits ....May *128

Controls
Dispatching center serves three states June *150
Reheat unit at Cloudy gives opportunity to build modern electrical control room. W. Greaves 3rd....Feb. *71

Ac machine—maintenance. S. Spence Dec. *139a

Demineralizer silica process-water costs for the electronics industry. E. H. Clohesey ....Mar. *89

Drills—circular level helps drill vertically. C. T. Bower (P.I.) ....July *139

Electrical distribution and rewiring — renovation roundup ....Mid-Sept.— 80

Electrical repair kit. F. Lettine (P.I.) July—138

Electrical varnish jobs—cleaning, dipping and baking tips....May *126

Generators
Automatic system for fire protection guards turbine-generators at Pfizer's Groton plant ....May *96
Erection tower moves stator. F. M. Barnes ....Nov. *89
Paralleling compound generators. Sergio Martinez ....June *127

How to ground portable electrical equipment. H. D. Whitaker....Jan. *122

How to weld grounding cables....Mar. *128

Insulators—portable platform for washing. G. F. Burnley (P.I.)....June *126

Keeping fuses cool. J. W. Blake....Jan. *121

Magnetism eliminated. A. J. Pfister (P.I.) June—138

Maintenance
3-pronged approach to electrical maintenance at Chas. Pfizer & Co.. Feb. *107

Making a conductivity cell. G. J. Tuttle (P.I.) ....Mar. *128

Motors—first aid for plant W-hours meters ....July *136

Mobile workshop speeds electrical construction. Bill Krause....June *126

Motors
Elevators—what causes those burn spots on bare? Sparks, Eckert, Breuglemann ....Sept. *130

Fluorescent lamp finds motor speed. A. Holt (P.I.) ....July *132

Motor winding insulation....Aug. *123

Pipe prevents damage. R. Eckert (P.I.) June *122

Salem motor is good for remote control. H. T. Bailey (P.I.) ....Aug.—126

Moving stairways—get off to a good start. F. A. Annett....Aug. *130
Get to know them before they catch up with you. F. A. Annett....Apr. *122

Nekoosa-Edwards Paper mill expands for in-plant steam and turbine power—electric-generating capacity. F. H. Coldwell ....May *88

Ohmmeter—watch those leads. Ed Eckert Dec.—131

Power—tips on buying and making power—renovation roundup (chart)..Mid-Sept. —70

Regulators—neoprene-type wires for regulators. L. Fitzpatrick (P.I.)....June—123

Safety—simple devices for plant safety Nov. *123

Switches—Ascher rope switch hoists well. . . Mike Brannigan (P.I.) ....Apr. *139
