Dear Harry:

I thought you would find of interest the enclosed article, "Safety and Health in the Workplace," that was passed on to me by our research department. It was published by Editorial Research Reports, which is a division of Congressional Quarterly in Washington.

It makes mention of asbestos and goes into some detail about OSHA activities. Also, the bibliography at the end may be of some assistance to us at a later date.

I am providing Bob Walsh with a copy as well.

Sincerely,

Barbara Hand
Account Executive
